## REVIEW OF ANSWERS TO OXFORD LATIN EXERCISES

- This book is so different, so astounding, that it defies catagorization. The concept of analyzing ancient legends and folk tales to reveal the inner nature of women and the patterns in womens' lives felt revolutionary to me when I first sat down with this book. But then, as I read each segment and digested the author's analysis and correlation with typical life patterns experienced by women, I realized that she tapped into truths

which are as ancient as the folk tales and legends themselves. Besides that, she is one of the most ELOQUENT writers I've ever had the pleasure to read. Her observations and their resulting lessons are so profound, so insightful they take my breath away at times. I just have to sit back, take a deep breath, shake my head and reread the section that just overwhelmed me. My favorites are "Skeleton Woman" and "Baubo the Belly Goddess". I don't want to give away any surprises... so just get this wonderful book and read these chapters for yourself! I've read it straight through, and then gone back to re-experience my favorite chapters. This book can be enjoyed either way! I would so love to meet this woman at a booksigning.

- Despite a fair summary of Qutb and a few critical comments about Sharon, Berman defends aggressive attacks on the "enemy". The book and thesis are essentially sophomoric simplification that seems to have impressed (from plaudits printed inside) numerous other unqualified readers who know the subject no better. It meets emotional needs for some but adds no depth of understanding..The thesis is a defense of aggression based on little more than Pop Psychology about totalitarianism and "suicidal" violence - referring to Camus but lacking his broader understanding. Broad categories and labels are grotesquely inaccurate lumping Islamic Fundamentalists together

and describing them as Fascist and Totalitarian. There is considerable diversity in the real world with some ready to participate in elections, and most who are not terrorists. Many are concerned almost exclusively with their own homelands. In the case of Iraq a secular, anti Fundamentalist, enemy of Al Qaeda was the US target. Consider too that there are proportionally probably more Christian Fundamentalists in the US than Muslim ones outside Saudi and Afghanistan. The history (including questionable conclusions describing the fall of France to the Nazis as solely from "liberal/socialist" lack of backbone) and psychology (sex, suicide, and totalitarianism are a syndrome) are not valid. They do, however, serve as propaganda demonizing Muslims in support of US and Israeli state counter terror. Again they provide a reason to avoid looking at the real issues and grievances resulting from those policies or the essential source of terror training and broad contacts from the CIA and ISI trained alumni of the Afghan-US war against the Soviets in Central Asia. (These are the folks whose leaders trained in the US and who were called, like the Contras, "the moral equivalent of our founding Fathers" by Reagan!) At least Berman's book it is not quite the insult to one's intelligence as explaining 9-11 by "they are jealous of our freedoms" but it is just as muddled thinking and equally motivated by propaganda rather than serious analysis - just this time for a book rather than a sound bite.
