REVIEW OF COMMUNICATIO N SYSTEMS 5TH EDITION SIMON HAYKIN

- The biggest issue I had with this book is the author says that men are secretly hiding insecurities and they always care about what somebody else thinks. If a man said this, I would be intrigued, because he knows what he is talking about because HE IS A MAN and he knows what's going on. Also, she's basing the whole book on survey results. She's coming to the conclusion that most men are like this or that because 70 percent of the men she polled said so. If you go on the website, you

can see how the questions were answered. Honestly, I got more out of her survey results online than reading her book. I would have preferred to read a book about men from a MAN'S perspective

- I read this book as a man because I heard so much about it and was interested in giving it to my daughter who is getting married in June. I thought it might be helpful at the very beginning of their life together to know what her man would most likely never tell her. However, I wanted to read it first because of some of the reviews that seemed to be negative. I must say, it was most affirming to realize that other men responded in the manner I would have to

the survey. I had a friend of mine look it over as well and he felt the same way. I don't think this in anyway harkens back to the 50's at all. In fact, no one in the 50's would have ever discussed this kind of thing and men and women in the 50's don't have near the negative influences upon their lives as they do now. To say that, in my opinion, is a negative reaction to the truth they don't want to admit. Fact...men are different than women...period. And when women realize this and quit trying to understand us men as women and attempt to relate to us in a manner that will

be productive the more powerful and positive their marriages will be. In fact, the conclusions Shaunti comes to are quite biblical. Read Ephesians 5:22 and following. Women are to give their husbands unconditional respect just as they expect to receive unconditional love from their husbands. But in our generation, even Christian women have been duped into believing the feminist dogma. I wholeheartedly recommend that this book be read by every Christian woman with an open and honest heart and mind. It will make all the difference in the world for their marriages.
