Literature, art and politics are investigated as aspects and gauges of human experience, research in related disciplines is discussed and changes in historical interpretations explained. The author also offers his own, personal, view of social history.

Modernism: A Very Short Introduction Atlantic Publishers & Dist

The Medieval Calendar Year celebrates the pictorial convention known as The Labors of the Months and the ways it was used in the Middle Ages. Richly illustrated and elegantly presented, it provides valuable insights into prevailing social attitudes and values and will fascinate all readers who are interested in the history and culture of medieval Europe. The Labors cycle was most popular during the High Middle Ages (ca. 1200-1500). The traditional cycle depicts the year as a round of seasonal activities on the land. Each month has its allotted task, and each of these represents one stage in the never-ending process of providing food for society. The small scenes that made up the cycle were well-known and used widely throughout Europe. They were chosen to decorate both public and private spaces: churches and houses, town fountains, baptismal fonts, as well as books of devotion intended both for priests and for the laity. The cycle was sculpted in stone, carved in wood, painted on glass and on manuscript pages. Examples from such media are described, but most of the illustrations have been taken from manuscripts, primarily Books of Hours. The author has spent the past fifteen years studying calendar after calendar, and one of her great strengths is her ability to see the social reality that lies hidden, even masked, behind the stylized presentation. In the chapter on winter, she shows how the image of this season, dreaded in the Middle Ages, was softened and sweetened by calendar artists to bring it more into harmony with the characteristic mood of the cycle as a whole. For autumn, she reveals how depictions of the harvest of grain, grapes, and livestock hint at a sophisticated market economy. Thematic chapters on children, women, and the hardship of work brilliantly cut through idealized conventions and assumptions to unveil the underlying complexities of life. The Labors cycle and its social context have not hitherto been examined in depth and with the care they deserve. The Medieval Calendar Year is a book worthy of the beautiful and beguiling tradition it describes.

The English Language Prabhat Prakashan

Poststructuralism changes the way we understand the relations between human beings, their culture, and the world. Following a brief account of the historical relationship between structuralism and poststructuralism, this Very Short Introduction traces the key arguments that have led

poststructuralists to challenge traditional theories of language and culture. Whilst the author discusses such well-known figures as Barthes, Foucault, Derrida, and Lacan, she also draws pertinent examples from literature, art, film, and popular culture, unfolding the poststructuralist account of what it means to be a human being. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

SOCIAL HISTORY OF ENGLAND. The Wessex Astrologer

A sweeping, illustrated history of Europe--a continent whose imperial ambitions, internal clashes, and existential threats are as vital today as they were during the conquests of Alexander the Great In just a few hundred years, a modest peninsula off the northwest corner of Asia has seen the rise and fall of several empires; served as the crucible for scientific dynamism, cultural innovation, and economic revolution; and witnessed cataclysms and bloodshed that have almost destroyed it several times over. This is Europe: a continent whose identity emerged not so much by virtue of geographic or ethnic continuity, but by a long and storied struggle for power. Studded with infamous figures--from Caesar to Charlemagne and Machiavelli to Marx--Simon Jenkins's history of Europe travels briskly from the Roman Empire, the Dark Ages, and the Reformation through the French Revolution, the World Wars, and the fall of the USSR. What emerges in this thrilling and expansive telling is a continent as defined by its continually clashing cultural identities and violent crises as it is by its tireless drive for a society based on the consent of the governed -- which holds true right up to the present day.

Information Technology and Mobile Communication Springer

When Ruttie Petit fled from her father's castle to wed Mohammed Ali Jinnah in 1918, their marriage outraged society at large. They were divided by community, religion and an age gap of twenty-four years. Well-known journalist Sheela Reddy uses never-before-seen personal letters and papers as well as accounts left by contemporaries and friends to portray this unusual relationship with a sympathetic, discerning eye. A product of intensive and meticulous research in Delhi, Bombay and Karachi, Reddy not only brings the solitary, misunderstood Jinnah and the lonely, wistful Ruttie to life, but also the society and politics of the times their story was set in. A must-read for all those interested in politics, history, and the power of an unforgettable love story.

English Literature Springer Science & Business Media

This book presents an unprecedentedly thorough collection of information on the diseases of cultivated annual oilseed crops, including peanut, rapeseed-mustard, sesame, soybean, sunflower,

and safflower. It covers and integrates global literature on the subject up to 2014, setting it apart from other books that are only of regional importance. The authors are internationally recognized experts who have compiled decades of information from previously scattered research into a single volume that provides much-needed updates to oilseed crop disease research.

Foundation Vikas Publishing House

The winners of the Nobel Prize in Economics upend the most common assumptions about how economics works in this gripping and disruptive portrait of how poor people actually live. Why do the poor borrow to save? Why do they miss out on free life-saving immunizations, but pay for unnecessary drugs? In *Poor Economics*, Abhijit V. Banerjee and Esther Duflo, two award-winning MIT professors, answer these questions based on years of field research from around the world. Called "marvelous, rewarding" by the *Wall Street Journal*, the book offers a radical rethinking of the economics of poverty and an intimate view of life on 99 cents a day. *Poor Economics* shows that creating a world without poverty begins with understanding the daily decisions facing the poor.

The History of England from Its Earliest Beginnings to the Tudors Elsevier

The first book in Peter Ackroyd's history of England series, which has since been followed up with two more installments, *Tudors and Rebellion*. In *Foundation*, the chronicler of London and of its river, the Thames, takes us from the primeval forests of England's prehistory to the death, in 1509, of the first Tudor king, Henry VII. He guides us from the building of Stonehenge to the founding of the two great glories of medieval England: common law and the cathedrals. He shows us glimpses of the country's most distant past--a Neolithic stirrup found in a grave, a Roman fort, a Saxon tomb, a

medieval manor house--and describes in rich prose the successive waves of invaders who made England English, despite being themselves Roman, Viking, Saxon, or Norman French. With his extraordinary skill for evoking time and place and his acute eye for the telling detail, Ackroyd recounts the story of warring kings, of civil strife, and foreign wars. But he also gives us a vivid sense of how England's early people lived: the homes they built, the clothes they wore, the food they ate, even the jokes they told. All are brought vividly to life in this history of England through the narrative mastery of one of Britain's finest writers.

REVIEW OF PADMAJA ASHOK AUTHOR OF THE SOCIAL HISTORY OF ENGLAND

- A lot of books, for all they teach, are actually over-stated articles. But since books are more profitable, writers and publishers prefer them. So you wade through all those pages of a book, only to realize you've learned as much as could have been covered in a less time-consuming booklet. This is such a work. The author does offer a sensible program for getting in shape, but he cloaks it in a lame story. Is it worth the money? If it motivates you to get and keep in shape, yes. You may like it. I got awfully bored.

- Patrick Anderson from the *Washington Post* in 2004 called this one of the best serial killer books ever. It is hard to disagree. Years after finishing it, one can recall how well Katzenbach builds the story to a shocking conclusion. This is psychologically and emotionally draining, yet the pay-off is really rewarding. It is a classic!
