REVIEW OF 3 1

ANALOG ELECTRONICS II

- I don't often get teary-eyed from reading a book. I did for this one. I also usually read several books at a time. A chapter from this one, a couple of chapters from that one, etc. Not this time. I couldn't put this one down until I'd finished it. This is the story of the murder of two young women in St. Louis a little over 10 years ago and the horrible aftermath of the tragedy. The author is the victims' cousin and she is a powerful writer. GET THIS BOOK!

- To write an outline of Hard Times or Dickens' work would not be necessary. His writing has withstood the test of time, and is well know. To give

encouragement to would-be Dickens' readers and Hard Times readers does seem like time well spent. Hard Times ventures from other Dickens' books in the writing style lending a departure from Dickens' previous descriptive formats. In this particular book, Dickens lends skill, imagination, and panache to English language usage. He breathes life in to the language of the novel, and he remains a master of dramatic setting and story line. When people say, "Read good books, it will rub off on you." Hard Times comes first to my mind. Therefore, a reason to read Hard Times would be to improve your own reading and writing. I admit some of the

character's lives are depressing. When I looked back upon the entire book, and wondered if Hard Times would differ if set in present day with cell phones, PDAs, the Internet, electricity, airplanes, automobiles, and so many distractions. My guess would be - probably not. Would Louisa Gradgrind's life have taken a different course if she were living in today's world? My guess would be, perhaps, a slight shift on her circumstances, and, again, probably not. Dickens' charms include being able to put his finger on a character type and bring it to life. This is why I'd call certain present day figures, "A Mr. Bounderby" or "A Gradgrind". The Whelp or Tom Gradgrind

remains alive and kicking; I've met him. My recommendation: Read Hard Times. You will be a better reader and writer for it.
