## **REVIEW OF FROM THE FRYER TO THE FUEL**

- Julie Garwood is a very popular romance writer. Many reviews I have seen for other books suggest this author, so I decided to give her a try. I guess I am in the minority on this one, because after reading this story and The Prize, I can honestly say that Garwood is not for me. To start out with, I don't find it romantic in the least to have the hero treat the heroine like a child. This is a regency novel and it being such, I know the husband had the right to order the

wife around but this was a little extreme. It seems like every page the hero is telling the heroine what to do and what not to do and it seemed to get to the point where the poor couldn't do anything without giving him the ok. Even choose her own clothes. My second problem is that the heroine, Alesandra, behaves like an idiot the whole time. I think Garwood is trying to make her seem innocent, but she gave a different impression entirely. She comes off as dumb and childlike. Garwood just isn't for me. I can't believe she is so popular. Her work pales in comparison to authors like Mary Jo Putney, Lisa Kleypas, or Marsha Canham.

- I found my mother's old beat up copy of this teen romance when I was about 10 years old. That was 20 years ago, and

I still have that poor, much-abused paperback in my bedside table and it is still one of my favorite stories. It tells the tale of Laurie, a 16 year old junior at Glendale High, who has been in love with her next door neighbor, Sammy, for as long as she can remember. In the first chapter, he comes over to her porch to confide in her that he has finally fallen in love! However, their stars become crossed when Sammy tells her he is scared to death because "this isn't just any girl, this is a popular, beautiful girl!" Laurie bravely tells him she will help him get this girl, whoever she is, and that the absolute best way to get her attention is to make her think he is interested in someone else. That shuts Sammy up fast because, of course, Laurie is the girl! So poor Laurie spends her days helping

Sammy capture this unknown rival's attention by acting as if they are a couple...and she spends her nights crying into her pillow. Miserable, she asks her mother, "What is the meaning of love?" Her mother tells her, "Love is wanting someone to be happy." Laurie is disappointed with this lame answer and concludes that parents are completely out of touch. But when Sammy realizes she loves him and asks her why on earth she was trying to help him win over another girl, she tells him she was doing it all to make him happy, even at her own expense. Dear old mom...she really did know what she was talking about. In another chapter, Laurie causes trouble for her mom and dad when her father gives her mother a vacuum cleaner as a present, and Laurie tells her mother that

it is a pathetic gift, and that her father is taking her completely for granted. Of course this causes all sorts of chaos! I love this book. It is set in such a sweet time--and is such a sweet story, but it has some real lessons about letting people be themselves and find happiness in their own way. The story is light and funny and the fifties slang is "dippy" but the characters (especially Laurie's parents) are very three-dimensional. And in the end, you see that Sammy's love for Laurie is the serious kind, and not just puppy love. I recommend this book for anyone! Although it is set in the fifties, much of the story could take place today. What is more timeless than 2 kids in love? It is "safe" for pre-teens because there is really nothing sexual, just some light

kissing. And Laurie is so dramatic--what young girl can't realte to that?! Girls would most definitely like it more than

boys, although I made my husband read it when we first got married and he really enjoyed it! If you are lucky enough to locate a copy, you must read it!
