REVIEW OF SOFTWARE PROJECT MANAGEMENT BOB HUGHES AND MIKE COTTERELL 5TH EDITION PPT

- If you are trying to raise kids in today's world you know how few of them out there still are taught manners and behave. Get this book and your life may become a little easier.
- Somewhat disappointed with this, daily offices (if you can call them that) are merely scriptural excerpts, with a longer and usually very un-interesting commentary. As an Episcopalian, I am always looking for ways to deepen my spiritual experience, but I think, after reading these and the author's reflections, I am more convinced to remain in the mainstream, non-gnostic faith tradition. In true fashion like many other gnostic books, readings are very cryptic, up to any interpretation, and borderline being a bunch of boring, spiritual mumbo-jumbo. Basically, we have a divine spark, people. That is not hard to understand. We are sacred, we are created beings. We don't need the likes of Valentinus, Mani, Mandaeans, Sethians, etc to tell us that, and "reveal" some grand truth that is hidden beneath everything. God did not put us here to confound us, but to love and enjoy us, as we need to enjoy Him (or Her, whatever your taste). I think many Gnostics, like the author, tend to be frustrated spiritualists, looking for new and different ways always to entertain their spiritual boredom. At risk of becoming as spiritually arrogant as doctrinal reformists, the Gnostics seem to be pretty sure of a lot of things. We must remember, however, just like many aspects of mainstream Christian theology, Gnostic beliefs are heavily influenced by convergences and asyncretizations of pre-Christian, hellenic, mythological, platonic insights and most definitely - human archetypes and attributes. The sacred is within. Celebrate it, seek it. Knowing that, there is nothing much more this book can do for you.
