## **REVIEW OF STIGA PARK 12 SERVICE MANUAL**

- Many years ago, I read this book, which thoroughly captivated me. Before earning a worldwide reputation as a writer of exciting and wildly imaginative children's books, Dahl had served as a fighter pilot in the Royal Air Force during

the Second World War. Here he relates his experiences of undergoing flight training in Southern Africa. He conveys with touching clarity the stresses, joys, and pain any pilot trainee experiences in coming to grips with flying. As someone who is fascinated with aviation, I almost felt as if I were in the cockpit with Dahl as he advanced through the various levels of training. Dahl went on to serve with a fighter squadron in Libya, which, in the wake of the German blitzkrieg in the Balkans in April 1941, was later sent to Greece. It proved to be a fruitless undertaking as Dahl's squadron sustained heavy losses and Dahl himself was grievously wounded. This book is a testament to one man's love for flying

and his efforts to pick up the pieces and resume a full life again.

- This book will show you how to write a proposal to get business. Too many people forget that the proposal has to be from the customer's point of view. This book shows you how to write a proposal from your customer's point of view and get the business. I loved the way the book is organized and it's got so much useful information that you absolutely need in a winning proposal. The CD makes it all so easy to use. If you want to know what needs to be in a winning proposal and how to get your message across to a customer, you need this book. This is a great business resource book that you'll put to good use.
