REVIEW OF KPI DASHBOARDS FOR SAP EVERY ANGLE

- of if this is a ripoff from another story this is such an obvious attempt to make money off the stephen king name, whether or not it was written by him or someone else it's only half a story albeit a somewhat decent one but you're still paying normal price for what adds up to be an advertisement for the show Kingdom Hospital. Save your money.

- Frank Herbert created simply the most brilliant piece of science fiction/fantasy ever written. Arrakis is to me what Middle Earth is to others. If you're debating whether or not you want to purchase a copy, you should stop debating and buy it ASAP. If you're even remotely a science fiction/fantasy fan then you will love it and most likely go on to read the entire amazing series. (Just wait till you get to God Emperor of Dune! It will blow you away!) Once maybe every generation we're

blessed with a writer with an incredible imagination like Tolkien or JK Rowling and Frank Herbert is such a giant. Forget about the awful movie made by that hack David Lynch, do yourself a favor and read this book!
