REVIEW OF SAP BW PROJECT IMPLEMENTATION GUIDE

- I'm sure this review won't get any "helpful" votes, but here are my thoughts. Somehow, this book wasn't required reading in any of my high school or college classes, so I had no idea what it was about when I picked it up (on a flight on my honeymoon, no less). I thought it was a great read. I'm not one to get into allegorical type books or story lines, but this one was good. The author did a great job of presenting a microcosm of the best and worst sides of human behavior, or so I thought. I thought the final page ended the book perfectly. The kids get rescued from completely destroying themselves by adults, who are in fact part of a much larger world/society/culture trying to, well, destroy each other. Perfect ending.

• Can we really "trace the defect of society back to the defect of human nature"? This book was written in an attempt to find out. In *Lord of the Flies*, William Golding shows us, naked and exposed, at once innocent and corrupt, noble and cruel, and all too human. He uses symbols, theories, and ideas to help illustrate his point. For example, the female sow, represents the mother of the boys - the killing of the sow symbolizes the killing of the mother. The roles of the three main characters are different; Ralph being the ego (self knowledge), Piggy being the superego (conflict between thoughts) and Jack being the id (want). *Lord of the Flies* uses symbolism so well, that it is understandable, interesting to read, and catching. The writing in this book is structured so well. I was able to understand what he wrote, and I was hooked. What I

liked best about this book was the clarity of it, the style of his writing and the plot of the story. His writing is also very specific. I was able to put pictures in my mind about what was being said - {Over the Island the build up of clouds continued. A steady current of heated air rose all day from the mountain and was thrust to ten thousand feet; revolving masses of gas piled up the static until the air was ready to explode}-this is an excerpt from chapter nine. It is obvious that his style of writing is excellent and should be highly acknowledged. It deserves a 5 star rating. *Lord of the Flies* is a wonderful, symbolic, adventure into ritual, primitiveness, death, guilt, innocence, betrayal, and war. Only then, will you find the answer to the question, "can we trace the defect of society back to the defect of human nature"?
