## **REVIEW OF ARIHANT DESCRIPTIVE GENERAL ENGLISH THEBOOKEE NET**

- I read first edition of this book when it came. There were hardly any books available on SNMP at that time . Rose being one of the creators of SNMP, I expected this book to be good. And I was totally wrong! The descriptions are all fuzzy. After reading it, I had some idea about SNMP but I was not sure of anything I learnt. I think the RFCs on SNMP are best reading. They are precise and they do not leave you feeling uncertain.

- I wasn't interested in seeing the movie but the idea of the book captivated me so I was pleased when it was re-released. Unfortunately, I found the book somewhat disappointing. The premise of Mothman Prophecies is interesting but the actual execution of the book doesn't live up to the promise of the subject matter. Keel tries to include too much information and too many diverse happenings. While everything in the book contributes to the premise - that strange things did indeed happen in West Virginia one year in the mid-sixties - he never really focuses on any one aspect. Mothmen are one of many phenomena he describes. And while he gives a great deal of background on the many phenomena, he never really lets us know what he thought caused the upheaval that year. There are many case studies but very few conclusions as to the cases he

encounters first-hand. And when he does cite previous studies or encounters, his sources seem a little shaky. Citing established sources is one thing but citing what I would think of as fringe publications causes me to question the validity of both his conclusions and the original source material. I do, however, understand that legitimate, well done research is produced by less established organizations and publications. While there are

flaws, Keel does make the book enjoyable. It could be dry and lifeless but he injects a good sense of humor into his study keeping the reader engaged. And while you may believe nothing about what he claims happened, he does make a strong case for himself. Its hard to avoid admitting that something outside our collective realms of experience happened that year.
