REVIEW OF GUIDE TO UNIX USING LINUX INSTRUCTOR MANUAL

- Not as tightly plotted as the other Leaphorn/Chee novels, but still very enjoyable. watziznaym@gmail.com
- Though this book retolds the famous 10-year-voyage of Odysseus, it is still adventurous and fascinating. The writing style is quite poetic, but the phrases are simple enough for elementary school children (upper grades). The writer and the artist didn't forget the virtue to give us information about an ancient map and Immortals and Mortals. Above all, the illustrations are very intriguing. Blue, gold, and earthen colours bring readers to fantastic and imaginative new worlds of adventure. Also the cleverness of including Milton's famous statue into the illustration of the palace of King Alcinous makes me smile. My 11-year-old daughter and I love this book!
