REVIEW OF ENGINEERING DRAWING AC PARKINSON

- Required reading in my senior or junior year I must confess I ran an purchased (No Amazon in 77') the cliffnotes but could always wanted to actually read James Joyce's classic and much more. I

must confess, the thirty pages or so I have read thus far has prompted me to think in other directions as most books do and where else do I purchase my books? Amazon. Naturally.

- I am sure you will not find this worthwhile. I did buy the book sometime ago but did not realise it is so long and so confusing. There is lots of words but no real story line as I can see. I have read and heard people say that it is a classic of english literature, and I intend to wade through it on my Kindle. I have not given up, my daughter studied the book at university but she had to admit that it is hard to read and it was written in a drunken state. I intend to give it a good try to see the literary value and if it is worthy of the title. I will have to let you know later.
