REVIEW OF COMMON CORE RETEACHING AND PRACTICE WORKBOOK GRADE 5 ANSWERS

• 1984 is a book about a controlling government taking too much power over it's people. This book totally reminds me of my favorite movie series, Star Wars. The dictatorship is close to the communism in present-day Cuba where the people have no say in any matter. The government known as Big Brother has developed a language, Newspeak, for the people of Oceania. The language prohibits people from acting against Big Brother. All citizens are under intensive constant watch including the main character Winston Smith. All thoughts, actions, and words are recorded by telescreens at all times. These telescreens are watching for anything out of the ordinary. Winston is constantly thinking rebellious thoughts while knowing the government is "ungood". The common English word "bad" translates into Newspeak as "ungood". The setting holds three superstates Oceania, Eastasia, and Eurasia who all have simmilar governments looking to gain ultimate power over the other two. As the book goes on Winston finds a co-worker and future lover Julia who thinks the same way as him. The two share thoughts and present them to O'Brien, a third worker who is believed to be in charge of "Brotherhood". Brotherhood is the rebel group who disagrees with Big Brother. Two weeks later we find out the secrets of Big Brother. Doublethink is the known method used by Big Brother to have a single person think to opposite thoughts and believe both. O'Brien tells us about doublethink with "Reality exists in the human mind, and nowhere else," says O'Brien. ". . . In the mind of the Party, which is collective and immortal. Whatever the Party holds to be truth is truth." Orwell obviously was a strong believer in the warnings of a "controlling American government" The book makes me think to myself could this all happen if the government became everything it has become throughout 1984.

• George Orwell's 1984 is a thought provoking novel about a future which we were fortunate to escape...or did we? I enjoyed this novel not because of the storyline itslef, but rather because of the theories and ideas brought forth by the story. Orwell writes of a man named Winston, his girlfriend Julia, and their boss/confidant O'Brien, in the future continent of Oceana. Oceana is constantly at war with one or both of the two other super-countries, Eurasia and Eastasia. 1984 is the tale of two people struggling for independence and freedom in a country where the government controls everything down to our very thoughts. Winston and Julia set out to change the way things are, or at least try, but after only scratching the surface of the true reasons behind the way things are, they find that the government, "Big Brother", has powers reaching far deeper than they ever could have imagined.
