REVIEW OF FIRST SWING GOLFERS GUIDE

- great book, although i dont care to read this paperback version due to the size of the font and layout. its all just so crammed in there!! its lightweight but thick, i would prefer to read a digital version or have a hardcover to keep around. this prouted paperback version is not ideal ~
- Terror and Liberalism starts off by discussing what I have always believed was an obvious truth but have never heard another author talk about. That being that the left and right edges of the political spectrum are not endpoints on a

line but in fact the link of a full circle. Fascism and Communism meet at totalitarianism. Paul Berman maps out a template for totalitarian dictators like Hitler, Stalin, Mussolini and Franco. To this list he adds Saddam Hussain and his Baathist Socialist Party which combines ideas from both ends of the political spectrum including admiration for both the Soviet Union and Hitler. Berman mentions that there was a time within the 20th century when 30 percent of the people in Baghdad were Jewish. Hitler's anti-Semitism has had an obvious influence. The Islamist movement is a similar co joining of the extreme left and right meeting at totalitarianism. One writer that Berman spends a lot of time talking about is Sayyid Qutb, an Islamist philosopher who was put to death in

Egypt back in 1966. Qutb wrote about the erosion of Islam due to the influence of Western secularization. His desire was to see a pure Islamic state created with the reinstatement of shariah laws. He hated the Jewish Zionists and Christian Crusaders and his basic goals seemed to mirror the goals of Bin Laden and Khomeini as if perhaps they were influenced by his writings. Qutb saw the pure Islamic state as a liberal utopia which seems, to a western mind, incompatible with his desire for seventh century justice including public stonings, severed limbs and a totalitarian law that applies to all public and private behavior. These Islamists have sunk into a pathological state creating a 'cult of death' where philosophers and leaders revel in killing for the sake of killing.

They see blood as purification. The bombshell is that these kind of nihilistic views are nothing new. They are no more violent than the writings in France during the Terror or Nazi Germany or Stalinist Russia or the British occupiers of Africa where blacks were killed for seemingly no purpose besides performing the act. Berman argues that this cult of death is very much influenced by western philosophy and the results of WW I and II. The author spends some time showing his admiration for the Bush administrations desire to improve the lives of women in Afghanistan as well as spreading Democracy to the Middle East. I was worried that Berman was being naive but he redeems himself completely in the last chapter. Bush's talk of spreading

freedom and democracy and women's rights is a very liberal stance so why are liberals not cheering? As Berman points out the problem is that this is diametrically opposite of Bush's past views. He was never concerned about women's rights and went on record stating that he was against nation building. He even implied that if given the choice he would have stayed out of the Balkans. So how does a man unmoved by genocide suddenly decide to spread liberalism to the Middle East particularly since he so enjoys denigrating liberals? This cuts to the heart of the matter. Bush is a realist masquerading as an idealist although I question whether his reality matches the reality of our planet. The Daily Show did a segment on Bush's 2004 acceptance

speech and counted the incredibly high number of times Bush used the words freedom and liberty. Believing in freedom, democracy and liberty are all well and good but if you continue to support repressive regimes it shows you are working in bad faith. You can't support Saudi Arabia, a monarchy and one of the worst offenders of human rights in the world, and claim to be spreading freedom and democracy. Bush recognizes Pakistan as a Democracy despite the fact that General Pervez Musharraf took over in a military coup and has never had a legitimate election. Working with allies based on strategic interest is fine but it cuts against Bush's idealistic moral rhetoric. He's working in bad faith which may work with American's who suck up his glittering

future but not so well with foreigners who recognize the hypocrisy of his words. Ultimately the problem of terrorism needs to be addressed on both sides of the political spectrum. Liberals need to recognize that even with putting the violence aside for a moment the Islamist movement remains a racist, sexist, and bigoted movement with desires to create a theocratic totalitarian

society. It is the opposite of liberal social ideals. Half a century ago many liberals made the mistake of defending Communism. The Islamist movement is undeserving of any liberal sympathy. The right needs to stop promoting unilateralism, preemptive strikes and excursions into fantastic nation building as in Iraq and start working in good faith.
