REVIEW OF STEEL DESIGN 5TH EDITION SOLUTION MANUAL

- I read the series for the first time when I was in Matric. As can be believed, I was unable to put down this absolutely riveting book. I have subsequently reread the series twice, and also convinced my family and friends to read it. It is an emotionally evocative tale of a young woman full of strength, courage and an abounding love. I strongly suggest this series, and wait with impatience for the next book.

- The Earth's Childrend Series, especially The Clan of The Cave Bear is the most awesome tale of the struggle for survival. It is easily the best book I've ever read, by far. I can't seem to put it down whenever I read it, and I've read the series 3 or 4 times by now. I have to say Ayla is my hero. The first time I read the book, I was 12, now ten years later I am in the middle of it once again. Auel captures your heart with the struggles, loves, and losses Ayla has to go through, throughout her life. I just wish Auel

would finish the last book; she has left us all hanging.
