**REVIEW OF 50
ESSAYS A
PORTABLE**

ANTHOLOGY ANSWER KEY

• Bruce Ware wrote in the Preface to this 2000 book, "Readers will find this book unkind to open theism... this debate with open theism is central, not peripheral. It has everything to do with the God whom we trust, follow, honor, and obey." Ware cites John Sanders' interpretation of God's promises to Noah, and comments, "Here, then, God second-guesses his prior decision. 'Perhaps this is not after all the best way to deal with despicable human evil,' God apparently reasons... And given that God promises never again to act in this manner... God must have felt very badly about what he

had done." (Pg. 54) He later summarizes, "What confidence can we have in a God who must second-guess his own actions? ... If God is not sure that what he does is best, can we be sure that he really knows what he is doing?" (Pg. 159) He quotes Isaiah 48:3-8, observing that what this passage asserts is nothing short of massive foreknowledge and absolute accuracy, "neither one of which can be accounted for in open theism." (Pg. 118-119) Concerning Deut 18:18-22, he comments, "If God lacked knowledge of the future, how could he predict such matters with such accuracy and certainty...?" (Pg. 137) He asks hypothetically, "Why would one ever think

that it is a benefit to us that God takes into account what we think as he decides what is best? How can it be better that God and I decide my future together, rather than leaving this altogether in God's infinitely wise and perfect hands? Who do we think we are?" (Pg. 186-187) Ware's book is a spirited and useful contribution to this ongoing debate.

- CoTM is, of course, an excellent book - it's Card on Ender, what else is there to say? If you haven't read the first books, read them first, otherwise you'll have a hard time understanding huge chunks of the plot.

Taken as the conclusion of the series it's a great book, though not as good as the first two in the series. Ender's game (the first book) is one of the best sci-fi books I've ever read, so, remember - all criticism is relative. It's a beautiful book - philosophy, drama, and science all blended together perfectly. I had to try to slow myself down as I was reading it - I was going so fast I was skipping lines! As soon as I finished it I wanted to read the series all over again, all at once. I know there are things I missed this time because of the time interval since I read Zenocide.
