The one-of-a-kind narration style, relatable personalities, and plot spins make it a beneficial addition to your shelf. So, if you're searching for an exciting read, Geology Book Of K M Bangar In is most definitely worth thinking about.

REVIEW OF GEOLGY BOOK OF K M BANGAR IN

• Okay, I'm a Babylon 5 fan, and when I REALLY delight in something, I try and "ingest" everything about it that I can, so I have read all of the Bab 5 novels - however this is the first one that was enjoyable not only as a tie-in but as a well written piece of science fiction. This is an excellent book and I'm afraid, in comparison, the remaining novels suffer. Drennan has the laudable ability to get inside her characters' minds, to mimic their speech patterns and to make them come alive for the readers. I always wondered how Sinclair felt, being yanked off Babylon 5 and sent to Mimbar... I need wonder no more. Almost all the loose threads are tied up here, from the larger questions surrounding Sinclair and the Rangers to tantalizing tidbits concerning just how Marcus might have managed to get bacon for Susan and from whence came that obscure reference to "Lucy and Ethel." It is small jewels like these that make this book a treasure to read. Only two complaints. One, the book tries to cover too much in one novel. Although Drennan does a superb job of packing in the information, the story could have been stretched out over two or three novels, giving us more to satiate our need for good Babylon 5 fiction! And second, there is a short description of Sheridan's behavior during his time in the Academy which I found out of character. He never struck me as the type to relentlessly torment someone over a mishap, even in the name of "tradition," but this is a very small grievance in light of the rest of this masterful work. Buy it. Read it. And ENJOY! May we hear from Drennan again!

• I just love this book, and it was intended for a gift, so I have to get another one! It has such a great variety of old and contemporary german cuisine recipes and I just love every page of it...I discovered it while in Germany and it is living up to the recipes thus far....I highly recommend it...you could easily make a 7 course meal every day for a whole week with the rainbow of recipes in this book!
