REVIEW OF 500 SPANISH VERBS FOR DUMMIES

- I did not go to boarding school and was never on scholarship, but for some reason Curtis Sittenfeld's Prep is the closest to my feeling of what high school was like. I am sure that statement does not qualify me as the most unbiased critic. That said the things I related to most were not the situations so much as the emotions. The desire to avoid seeing some one after an initial first contact, never knowing if a connection is real etc. all that I understand. I went to a private school so the schools legacy, how it being there makes everything more important, as well as the secret games and changing teachers. The promise of some elite dream world and the way it cease to exist once you get there. I also

really enjoyed the structure. Each chapter works as a short story as well as adding to the resonance of the novel. This added to the feeling of reality that I got from the novel. Life happens in little stories that get strung together. And unlike so many high school stories the big revelation is not in what happens in school but in the reflections made after leaving it. As this point I have to defend the last chapter with its explicit sex scenes as necessary. The chapter before it has Lee's parents visit bringing up Lee insecurities in a passive way. She is acting more aggressively with the false bravado but all the insecurities she has spiral out of control. There is a wonderful sense of self-consciousness in the sex scenes recalling the physicality and the psychology of the moments. The prose is also an accomplishment. Ms. Sittenfeld has an ear for the sex and style obsessed youth culture and the desire to seem smarter than everyone else that is so normal amongst these communities and the Fiora's familial relationship. Lee is also narrating from a period in her life where she is smarter and that comes across well the plot does not dumb anything down.

- I love novels relating to coming of age themes, adolescents, and schools, and the novel "Prep" is one of the best! From the moment I began reading the book, I had difficulty walking away from it, finding myself thinking about Lee and her boarding school experience throughout much of the day. She is possibly one of the most interesting young girls I have had the privilege getting to know. Often I felt voyeuristic, like I was privy to her diary complete with her most private thoughts. The character of Lee was so carefully composed by the author. At times I loved

her biting wit, was charmed by her shyness, was annoyed by her constant self-analysis, and was angered by her intolerance and self-loathing. She is the quintessential adolescent teenage girl! The richness and depth Sittenfeld brought to her character was uncanny. Often, it read as a memoir, so personal and raw with emotion. Many reviewers noted the disturbing sex scenes and I agree they were, but high school sex is often disturbing-- a lethal combination of passion, shame, insecurities and desire

to connect with another person in the most intimate way possible. As creepy as it was, the sexual relationship between Lee and Cross allowed the reader to glimpse into the psyche young teens. High school can bring back memories of the best times of our lives as well as some of the most painful we will ever experience. Curtis Sittenfeld has written a novel that captures that time of our lives in her vivid portrayal of Lee. The novel is one to be commended on its insight and authenticity.
