Crime, Law and Justice in New Zealand examines the recent crime trends and the social, political, and legal changes in New Zealand from the end of the twentieth century to the present. Serving as the only New Zealand-specific criminal justice text, this book takes a direct look at what is unique about the country's criminal justice system and recent crime trends. Crime rates peaked in the early 1990s and have fallen since. Newbold considers why this happened through factors such as economy, ethnic composition, changing cultural trends, and legislative developments in policing and criminal justice. He unpacks various types of crime separately—violent crime, property crime, drug crime, gang crime, organised crime, etc.—and examines each in terms of the various complex factors affecting it, using illustrative examples from recent high-profile cases. The cover photo for Crime, Law and Justice in New Zealand was taken by Jono Rotman.

Minefields is a compelling exploration of a foreign correspondent's life - proof of Hugh's belief that 'if you go looking for trouble, you'll probably find it'. Over nearly forty years as a journalist and foreign correspondent, Hugh Riminton has been shot at, blown up, threatened with deportation and thrown in jail. He has reported from nearly fifty countries, witnessed massacres in Africa, wars and conflicts on four continents, and every kind of natural disaster. It has been an extraordinary life. From a small-town teenager with a drinking problem, cleaning rat cages for a living, to a multi-award-winning international journalist reporting to an audience of 300 million people, Hugh has been a frontline witness to our times. From genocide in Africa to the Indian Ocean tsunami, from wars in Iraq and Afghanistan to slave-buying in Sudan, Hugh has seen the best and worst of human

behaviour. In Australia, he has covered political dramas, witnessed the Port Arthur massacre and the Thredbo disaster and broken a major national scandal. His work helped force half a dozen government inquiries. His story is entertaining, deeply personal and quietly wise. 'An impressive career. His story is a triumph of substance over style.' Sydney Morning Herald 'Hugh is an icon of Australian journalism' Michael Ware, former Iraq correspondent for TIME and CNN

From early department stores in Cape Town to gendered histories of sartorial success in urban Togo, contestations over expense accounts at an apartheid state enterprise, elite wealth and political corruption in Angola and Zambia, the role of popular religion in the political intransigence of Jacob Zuma, funerals of big men in Cameroon, youth cultures of consumption in Niger and South Africa, queer consumption in Cape Town, middle-class food consumption in Durban and the consumption of luxury handcrafted beads, this collection of essays explores the ways in which conspicuous consumption is foregrounded in various African contexts and historical moments. The essays in Conspicuous Consumption in Africa put Thorstein Veblen's concept under robust critical scrutiny, delving into the pleasures, stresses and challenges of consuming in its religious, generational, gendered and racialised aspects, revealing conspicuous consumption as a layered set of practices, textures and relations. This volume shows how central and revealing conspicuous consumption can be to fathoming the history of Africa's projects of modernity, and their global lineages and legacies. In its grounded, up-close case studies, it is likely to feed into current public debates on the nature and future of African societies - South African society in particular.

Detective Inspector Jack Lennon of the Belfast Police has watched the developing cooperation between Northern Ireland's Loyalist gangs and immigrant Lithuanian criminals with unease. The Lithuanians traffic women from Eastern Europe and Asia for the Loyalists' brothels, and they're all making big money in spite of the recession that has stopped Northern Ireland's peace boom in its tracks. Lennon has a more intimate knowledge of the city's brothels than he'll ever admit, but the surge in trafficked girls makes him question his lifestyle, especially considering he has his daughter, Ellen, to care for now. When a Lithuanian trafficker turns up dead on Christmas Eve with a shard of glass embedded in his throat, Lennon's plans to spend the holiday with Ellen are put in jeopardy. The dead man was the younger brother of a ruthless Lithuanian crime boss, Arturas Strazdas, and the young Ukrainian woman who killed him has escaped her captors. Now Strazdas holds the Loyalists responsible and won't let up until everyone involved has paid. A bloody gang war erupts across the city. Meanwhile, somewhere in Belfast, Galya, the Ukrainian girl, is running for her life, alone and scared, clinging to the darkest corners as the frozen streets empty for the holiday. Galya's captors told her how the police deal with illegal immigrants, that she is a criminal in a foreign land,

and the law will not help her. And now she is also a murderer. She cannot be discovered by anyone, not the cops, not the gang who held her prisoner. There is only one person she can go to: a man she met on her first day as a prostitute, a friend who gave her a crucifix and an address to run to if she ever got away. He'd saved four prostitutes before her, he's told her, and she can be his fifth. But when Galya arrives at the address, she finds something more evil than she had ever imagined.

Formed out of the Royal Irish Constabulary at the time of Partition, the RUC's history is predictably a turbulent one right through to its replacement in 2001 by the Police Service of Northern Ireland. Few police forces in the world have suffered so grievously as the RUC and this book is a fitting memorial to the sacrifices made in the interests of the civil population it was determined to protect. Throughout its history, it has not only had to perform normal police duties but contain the ever present IRA threat. In 1969, the climate changed and ushered in a new and even more violent era of sectarian strife. The emergence of extreme nationalist organizations posed grave problems and, with the RUC in a prime role, the position of the Chief Constable was hugely important. This book tells the story of a remarkable police force without fear or favor. Ironically its reward for containing a hugely challenging internal security situation and at the same time policing the community traditionally was its disbandment.

The British campaign in Northern Ireland remains one of the most controversial actions in recent history. This new book by Aaron Edwards considers the strategic, operational and tactical aspects of what become the longest ever campaign embarked upon by British troops. The 38-year campaign, codenamed Operation Banner, went through a number of phases. It began as a peacekeeping operation, morphed into a counter-insurgency operation and ending as a policing and counter-terrorism force. Banner was massive in scale. No less than 10,000 troops were on active service throughout the campaign and at one point as many as 30,000 men and women were deployed on Ulster's streets. Drawing on extensive new research, this book presents an authoritative introduction to the 'Troubles', providing a strategic analysis of the successes and failures of the campaign.

Captain Sima Yasmeen of British Intelligence, working deep undercover disguised in an Afghan

burkha, infiltrates one of Al-Qu'eda cavernous hideouts in Afghanistan in an attempt to find out what terror mastermind Osama bin Laden is plotting just prior to the 9/11 WTC bombing in New York. When she shockingly discovers that, Osama has acquired a nuclear weapon purchased from a corrupt Army officer, Brigadier Musa Khan, of Pakistan's ISI Inter-Services Intelligence. And informs her MI6 controller, Colonel Sandy Campbell. While visiting her oilfield in Kazakhstan to ratify the final route for an oil pipeline, billionaire Rani Becker is brazenly kidnapped by Al-Qu'eda terrorists who intend extorting millions to partially fund Osama's purchase of the nuclear bomb. Rani's team of ex-SAS bodyguards, Killa, Kaffa Dog and Jumbo eventually pick up her trail which leads them from the sparsely inhabited deserts of Kazakhstan and Turkmenistan, through mountainous Afghanistan, and thence to Rawalpindi and Peshawar in Pakistan where they join forces with Sandy and Sima. Enlisting the resources of Gurkha RSM Nima and his tough band of ex-Gurkhas from the Himalaya, the combined teams set out to rescue Rani Becker. And also nullify the nuclear bomb threat. They're brilliantly assisted by Rani's chief pilot, ex-Falklands combat veteran Max, who tracks the ground convoys using satellite technology and hi-resolution surveillance cameras from the overflying company Hercules. Still dressed in an Afghani burkha, Sima is rumbled by nuclear physicist Azziz and promptly seized by Musa Khan in the den of contraband narcotics that is Smugglers Bazaar in Peshawar. Rani is coerced into signing the oil pipeline agreement. Still held captive by Ruthless Khan, Rani and Sima and then forced to accompany the nuclear weapon and join Khan's heroin convoy en-route to a smuggling rendezvous with a vessel on the coast of the Arabian Sea in southern Baluchistan. The rolling fire-fight action is continuous. This manuscript contains common everyday swearing and humour combined with action packed explosive adventure throughout. It's meant to entertain and is written by a free person living in a supposedly free speech country. With no offence, implied or intended to any person, political or religious group or culture. The author reserves the right of free speech. Quite obviously, some literary licence has been exercised in writing this fictional novel. Most of the locations are real. The dates of certain historical events are chronologically correct. For the most part, other than known historical identities already in the public domain; the characters are quite fictitious and any resemblance to dead or living persons is entirely coincidental.

An intricate psychological thriller from the master of Norwegian crimewriting— the latest in the Oslo Detective's series A recovering drug addict, Katrine Bratterud, is almost finished with her time in rehab. One evening, contemplating her success at the shore of a lake, she senses that she is not alone. The discovery of Katrine's corpse the following day brings detectives Frølich and Gunnarstranda onto the case and into a web of secrets and lies that stretches back generations. K.O. Dahl weaves an intricate plot, juxtaposing the selfdelusion of drug addicts with the more complex self-delusions of the well-respected middle-class people treating them. Like Henning Mankell, Dahl manages to merge the suspense of the classical whodunit with the detailed precision of the police procedural novel.

The News Pen and Sword

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of

the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst.

In line with the federal structure of the Nigerian State, tax administration in the country is multi-tiered. The Federal Inland Revenue Service is responsible for assessing, collecting and accounting for tax and other revenues accruing to the Federal Government. The States Boards of Internal Revenue and the Local Government Revenue Committees perform similar functions at the State and Local Government levels respectively. This book attempts to chronicle the changes that have been taking place within the Federal Inland Revenue Service since 2004 and how these activities have contributed to the reforms in the Nigerian tax system. In terms of value, the book facilitates an understanding of the role played by the Service; its staff and stakeholders in repositioning the Nigerian tax system. It is an essential reference material for everyone that seeks an understanding of the processes that underscore the ongoing changes in the Nigerian tax system.

## REVIEW OF TOYOTA HIACE VAN SERVICE

- After seeing part of the movie (as much as I could stand to watch), I've always avoided this book, but after reading some reviews of it, I decided it was probably just the movie that stunk and gave it a try. I liked the book. I thought the plot was good, and the characters were solid, and I was always interested to find out what happened. But the plot never really grabbed me, I never had to keep reading to find out what happened, so it went a little slow for me. But I think that may just be a personal preference more than any shortcoming of the story. I thought it got a little too involved in the ritual and the customs of the Fremmen, but what I was more interested in were the characters of Maud'dib and Jessica and the Atriedes and Harkonnen families. I'll probably at least read the next book to see if I get any more interested, but if I don't I probably won't go any farther with the series. Overall, though, I thought this book was interesting and well-written if not the best thing for me personally.

- Those with an interest in or penchant for the paranormal will be riveted to this reading by the author. A career spiritualist, Eleanor Druse, lives in Maine (as does Stephen King whose "Kingdom Hospital" will be on TV) and spent considerable time organizing the journals she has kept regarding her experiences with Kingdom Hospital. After surviving a near death experience when she visited a friend at that hospital, Druse spends some time at Boston General Hospital suffering from an unknown illness. Upon returning home she hears rumors about strange happenings at Kingdom Hospital and determines that she must investigate. She begins after soliciting the help of her son, Bobby, who is an orderly there. Among her discoveries is the fact that the Hospital is built on the site of a textile mill that was destroyed by fire after the Civil War. This conflagration also took the lives of many workers, child laborers included. Druse becomes convinced that the spirit of one child, Mary Jensen is imprisoned within the Hospital. She also senses that there are other evil spirits lurking among the corridors. "The Journals of Eleanor Druse" is a "Kingly" reading sure to chill and intrigue. - Gail Cooke
