This public inquiry report into serious failings in healthcare that took place at the Mid Staffordshire NHS Foundation Trust builds on the first independent report published in February 2010 (ISBN 9780102964394). It further examines the suffering of patients caused by failures by the Trust: there was a failure to listen to its patients and staff or ensure correction of deficiencies. There was also a failure to tackle the insidious negative culture involving poor standards and a disengagement from managerial and leadership responsibilities. These failures are in part a consequence of allowing a focus on reaching national access targets, achieving financial balance and seeking foundation trust status at the cost of delivering acceptable care standards. Further, the checks and balances that operate within the NHS system should have prevented the serious systemic failure that developed at Mid Staffs. The system failed in its primary duty to protect patients and maintain confidence in the healthcare system. This report identifies numerous warning signs that could and should have alerted the system to problems developing at the Trust. It also sets out 290 recommendations grouped around: (i) putting the patient first; (ii) developing a set of fundamental standards, easily understood and accepted by patients; (iii) providing professionally endorsed and evidence-based means of compliance of standards that are understood and adopted by staff; (iv) ensuring openness, transparency and candour throughout system; (v) policing of these standards by the healthcare regulator; (vi) making all those who provide care for patients, properly accountable; (vii) enhancing recruitment, education, training and support of all key contributors to the provision of healthcare; (viii) developing and sharing ever improving means of measuring and understanding the performance of individual professionals, teams, units and provider organisations for the patients, the public, and other stakeholders.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave

women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Values and ethics are integral to the provision, practice and delivery of patient-centred health and social care. This book, which is an expanded and updated version of the 2008 title *Values for Care Practice*, introduces readers to these concepts and helps them understand how they can apply them to become compassionate care professionals. The patient perspective and patient voice are seen and heard throughout the book. Readers are encouraged to reflect on their personal values and on those underpinning health and social care work and to understand how values and ethics are articulated in the latest Codes of Practice. The text uses activities and case studies to enable readers to apply theory in their practice. This book will help readers understand why good caring is more than merely a practical intervention; it also requires a personal investment and quality of character that involves genuine concern and respect for others.

The Ombudsman investigated three cases in which local statutory supervision of midwives failed, all of which occurred at Morecambe Bay NHS Foundation Trust. The cases clearly illuminate a potential muddling of the supervisory and regulatory role of supervisors of midwives. The current arrangements do not always allow information about poor care to be escalated effectively into hospital clinical governance or the regulatory system. This means the current system operates in a way that risks failure to learn from mistakes, which cannot be in the interests of the safety of mothers and babies and must change. Working with the Nursing and Midwifery Council (NMC), the Professional Standards Authority for Health and Social Care, NHS England and the Department of Health, the Ombudsman has identified two key principles that will form the basis of proposals to change the system of midwifery regulation: that midwifery supervision and regulation should be separated; that the NMC should be in direct control of regulatory activity. The Department of Health should convey these recommendations to its counterparts in Northern Ireland, Scotland and Wales and develop proposals to put these principles into effect.

For Maya, history is like a dream, and her dreams are like a history of her life and how it relates to others. Effortlessly defying and calling into question time and space, Maya inhabits fantastical realities filled with shamans, romantic longing, a daughter's struggles, and a flying dragon. Lyrically flowing between Maya's multiple realities, The Original Dream is the story of a young independent Indonesian woman trying to break free from cultural and social conventions while also searching for her place among family and friends. With guidance from her parents, coworkers, and sister, along with a newborn filled with the wisdom of elders, Maya navigates her perceptions, looking for answers to unknown questions. Whether soaring through the nighttime sky, caring for her nephew, or tending to guests at the hotel where she works, she tries to delineate the difference between dreams and reality and if such a difference even matters. "

REVIEW OF ANSWERS TO HCSW WORKBOOK

- I didn't realize when I bought this book that it was a reproduction of the original manuscript (i.e. photocopy). The typeset is hard to read, since they used different typeset conventions at the time of original printing, and some of the content is illegible. I would have preferred a reprint in modern typeset, even if it was not using modern English. The content is fabulous; Watts was a genius. And

it's kind of neat to have the reproduction, as a way to see what the original manuscript looked like.

- I think the cover art is the best thing about this book. The story is slow, slow, slow until the last third, when it improves considerably. Still, if a friend were considering reading this, I would steer her away. I enjoyed "Persian Pickle Club" (another Dallas title) twice as much, but still only rated that a 7.
