## REVIEW OF CERTIFIED DATA CENTRE PROFESSIONAL CDCP

- Matthew Stover's novelization of the third Star Wars movie, "Revenge of the Sith", is, quite simply, the best Star Wars novel in the entire series. More than any other Star Wars novel, it captures the characters, the story, the setting, the FEEL of Star Wars, in its often poetic but never obscure and dragging words. The plot should be familiar to anyone who has seen "Revenge of the Sith", the movie. Anakin and Obi-wan defeat Dooku, and return to Coruscant. However, all is not well in the Republic and Jedi Order, and as Obi-Wan leaves to hunt down the last remnant of the Separatist leadership, Anakin finds himself descending into darkness, as Palpatine reveals that he is more than he seems. In between descriptions of the story (of which the characterization is excellent), Stover inserts little poetic vignettes, some of which almost moved me to tears. The whole result of this work is a grand epic, one which comes closer to Lucas's vision than any other novel, and which is arguably as good as the movie itself in many ways (the characterization, for example, is in far better depth than in the movie). This man understands Star Wars.

- Most Star Wars novelisations are merely expanded screenplays, where the author writes the book of the shooting script without having seen the actual movie. The end result is generally a fairly brief book that is light on detailed descriptions. Star Wars: Revenge of the Sith by Matthew Stover couldn't be further from that definition. While written from the shooting script, the book adds at least a viewable 'hour' onto the actual film, describing the extra scenes in wonderful detail. Stover's style is carried on from 'Shatterpoint', and he divides the book into 3 distinct sections,

with each section titled with a clear, distinct and logical division between each. I found his descriptions of the characters, particularly Obi-Wan to be spot on. He incorporates small sections where he describes 'This is how it feels to be (character)'. In these sections, he really gets down to the essence of the character, and defines them brilliantly. He nailed every character, Kenobi, Anakin, Padme, Grievous, Windu and countless others. Stover clearly has a soft spot for Mace Windu, and follows on from Mace's previous outing in 'Shatterpoint' to his fateful confrontation with Darth Sidious. This confrontation, and Anakin's subsequent betrayal, were amongst the best written in the book. Stover shows a deep and thorough understanding of Star Wars lore, particularly the precepts of the Jedi Order, and the way

in which explores what it means to actually be a Jedi. The way he described Obi-Wan Kenobi, after learning of the massacre of the Jedi Order, is beautifully tragic. And in the final scenes, when Kenobi leaves Anakin to burn on Mustafar, Stover describes it as 'leaving it to the will of the Force', a succinct explanation for what becomes one of the major plot points of the sequel saga. As a Star Wars fan of some experience, I didn't expect to be surprised by the Episode III novel. I was wrong. Stover explores the story of Episode III in so much more detail than the film, particularly in regards to the nature of the Force itself, and Yoda's recognition of the cloud of the dark side, failure of the Jedi Order, and why Luke and Leia were not trained as traditional Jedi. These are all 'big picture' issues in the Star Wars saga, and set the scene for the sequel series. I highly recommend this book to any Star Wars fan.
