REVIEW OF WHY THE WEST RULES FOR NOW IAN MORRIS

- Truman Capote once said that he loved talking more than anything else. Inge's book is a collection of interviews with the great talker himself, covering the period from 1948, when Capote burst on the literary scene with his first novel, "Other Voices, Other Rooms," to a 1980 self-interview from "Music for Chameleons." It includes the complete texts of George Plimpton's important "New York Times Book Review" interview upon the publication of Capote's masterpiece "In Cold Blood" and

Eric Norden's lengthy 1968 "Playboy" interview, both involving Capote's claim to have invented a new literary form, the "nonfiction novel." These interviews make clear why we must sometimes take Capote with a grain of salt, and why we must take his work as seriously as he took it himself.

- I think letters from

Rifka is a really wonderful and well written book. A really good part in the book is when Rifka gets ringworm, she has to stay in Belgium while her parents go to America. Rifka learns the people in Belgium are a whole lot nicer than in Russia. Finally she goes to America to be with her family and they all live a very happy life.
