Do you enjoy the fantastical characters and plot lines in shows like "Futurama," "The Matrix," "X-Files," and "Twin Peaks"? Curious about the sudden rise in polyamory and bisexuality, or the reputed use of psychic thought-waves by

remote viewers to kill enemy combatants? Well look no further... New Saucerian proudly presents the original paperback of Albert K. Bender's "Flying Saucers and the Three Men" - the book that started off the Men in Black (MIB) craze and influenced several generations of science-fiction writers. This carefully crafted facsimile reprint features the wonderful cover art from the original 1968 paperback edition. In these pages, Bender tells the story of how he was "hushed-up" by the mysterious MIB, and then taken to another planet, Kazik, whose somewhat genderless inhabitants planted strange thoughts in his head. Were these MIB and spacemen from outer

space, Inner Earth, or agents of some terrestrial government? This must-have ufological classic features annotations, introduction, and epilogue by saucer pioneer Gray Barker, who tried his damndest to get the reclusive Bender to reveal the entire story.

This book is an authentic reproduction of the original printed text in shades of gray and may contain minor errors. Despite the fact that we have attempted to accurately maintain the integrity of the original work, the present reproduction may have minor errors beyond our control like: missing and blurred pages, poor

'This title was originally published in 1952. George Van Tassel was an American author and ufologist once claimed to have been in contact with an extraterrestrial from Venus. He was a controversial figure in the annals of ufology. Van Tassel's book, I Rode A Flying Saucer (1952, 1955), recounts his claims of receiving "cosmic wisdom" from "Solgonda" and a large number of other people from space. Among his other works are Into This World and Out Again (1956), The

The UFO Craze of 1947 Createspace Independent Publishing Platform

Hard evidence has existed since 1945 for the actual recovery of unidentified flying craft in the United States, according to a new research book, "TRINITY: The Best-Kept Secret" written by two seasoned analysts of the global patterns behind the UFO phenomenon. Italian investigative journalist Paola Leopizzi Harris and French-born information scientist Dr. Jacques F. Vallée have teamed up to

uncover the details of a New Mexico crash in 1945, fully two years before the well-known incident at Roswell and the famous sighting by pilot Kenneth Arnold in 1947. Over several site investigation surveys Harris and Vallée reconstructed the historic observations by three witnesses, two of whom are still living, who described to them the circumstances of the crash, with details of the recovery of a nearly-intact flying vehicle and its occupants by an Army detachment.

Combining their long experience in field research around the world, the authors have documented the step-by-step efforts by the military to remove the object, an avocado-shaped craft weighting

several tons, from the property where it crash-landed during a storm. Surprisingly, the literature of the field only includes a few passing mentions about the case, and only one (foreign) TV documentary has mentioned it, but the correlation between the crash of the extraordinary object and the explosion of the first atom bomb at White Sands, less than 20 miles away, has been missed. Harris and Vallée suggest that the correlation is significant for physical, geographic and biological reasons, quite apart from the obvious strategic implications. The witnesses were able to observe not only the actual crash of the object on their property but every

step of the military efforts to lift it and take it away. Fearing retaliation, they remained silent for some 60 years about what they had seen and done over those nine days at the site while the recovery was proceeding. When placed in the context of the history of chemical and physical analysis of retrieved UFO debris--an area where Harris and Vallée have long collaborated--the devices observed by the witnesses raise a number of very important scientific questions. The Honorable Paul Hellyer, former Minister of National Defence of Canada, has stated: "Paola Harris and Jacques Vallée have spent much effort doing field research on

location (...) It is now time that their discovery be revealed to the world."

The Best-Kept

Secret

Red Wheel/Weiser

Frank Scully published two columns in Variety, claiming that dead extraterrestrial beings were recovered from a flying saucer crash, based on what he said was reported to him by a scientist involved, Leo Gebauer (Dr. Gee). He later expanded these columns to create his book: Behind the Flying Saucers, a best selling book that influenced public perceptions about UFOs. Sixty thousand copies of the book were sold. According to Scully's book, a mysterious lecturer at the University of Denver pointed out the importance of magnetism. Mr. X claimed that a major research project underwent during WWII had made huge

advances, and scientists had reached the conclusion that everything existing owed its shape to magnetic lines of force. He explained that there are 1,257 magnetic lines of force to the square centimeter, and that the disintegration, suspension for a period of time, immobilization of their instrument boards of a plane, and such things like that can be duplicated in the laboratory. Therefore all that a flying saucer had to do to disintegrate a plane according to Mr. X, was to demagnetize it. Mr X was Silas M Newton. Silas Newton (1887-1972) was a wealthy oil producer who claimed that he had a gadget that could detect minerals and oil., because he

used a device based on "alien technology" recovered from the supposed crash of a flying saucer (Aztec UFO crash). He was cited as an authority in Frank Scully's book Behind the Flying Saucers, a work that claimed to report on several UFO crashes in the area of New Mexico. The Men in Black (MIB) took a closer look on Silas M. Newton whereabouts on April 25, 1951 as a result of Scully's book: Behind the Flying Saucers. According to the MIB, Scully mentioned in this book that Newton was an authority on the subject of flying saucers, and pointed out that flying saucers are "really manifestations of secret and sinister scientific research

made by the government". According to Newton's FBI File, he was familiar among the MIB for his claims to be engaged in government research of a "secret nature". This could be the main reason why Bureau agents (MIB) followed him. Newton could be working in some kind of secret project and leak some secrets to the Soviets (Red Russia). Saucerian Publisher was founded with the mission of promoting books in Ufology, Paranormal, and the Occult. Our vision is to preserve the legacy of literary history by reprint editions of books which have already been exhausted or are difficult to obtain. Our goal is to help readers, educators and

researchers by bringing back original publications that are difficult to find at reasonable price, while preserving the legacy of universal knowledge. This book is an authentic reproduction of the original printed text in shades of gray. IMPORTANT, despite the fact that we have attempted to accurately maintain the integrity of the original work, the present reproduction has missing and blurred pages, poor pictures and FBI censorship's pencil markings from the original scanned copy. Many of the original FBI documents pages are shadowy, and faint. ILLEGIBLE PAGES HAVE A NOTE. Because this material is culturally important, we have made available as part of our commitment to protect, preserve and promote knowledge in the world. Some of the issues could be missing. Great, but unpretentious, this edition is a rare symbols by itself of what was going in the begining of the modern UFO phenomena. This edition has the following parts in chonological order: Prologue; PHOTOGRAPHS; Frank Scully. BEHIND THE FLYING SAUCERS, Chapter 3, Some Personal History; J.P. [John Keel's Book of UFOs: the Best of Flying Saucers Magazine](#) Capstone Classroom

New Saucerian proudly presents "Flying

Saucer to the Center of Your Mind," a collection of magazine articles and lectures by John Keel, the man many consider to have been the 20th Century's premiere investigator of all things unusual and "Fortean." Many of the articles in this anthology and its companion volumes, "The Outer Limits of the Twilight Zone" and "Searching For the String," were revolutionary, and explored ideas popularized in Keel's classic books. Written in Keel's engaging trademark style, they are sure to delight fans with their fresh, unparalleled insights into the nature of reality. In these pages, John Keel displays the keen observational skills and investigative tenacity that made him the enfant terrible of ufology for decades. In this no-holds-barred analysis - some of which was written almost 50 years ago - Keel shreds most of the sacred-cow beliefs still held by many in ufological and "cryptozoological" circles today, presenting theories so radical that they are only now becoming accepted: the "4-D" or "interdimensional" thesis; the "breakaway civilization" theory; the possible role of "ancient aliens" in human history; the synthetic and/or hallucinatory nature of many "alien abduction" and "Men in Black" encounters; the role of spy agencies in paranormal research; and the alarming connection between UFOs, animal

mutilations, and attacks on unsuspecting humans. In short, "Flying Saucer to the Center of Your Mind" is witty, incisive, impassioned, and prescient, and cohesively brings Keel's message into focus in a way that perhaps no other book has. This 2013 edition features illuminating forewords by noted writers Gray Barker and Tessa B. Dick (widow of science-fiction writer Philip K. Dick), as well as an introduction by the editor, Andy Colvin (author of "The Mothman's Photographer" and "Mothman Speaks"). "Provides the foundation for a clear view of the phenomenon..." -Kenn Thomas, Steamshovel Press

consummate cryptozoologist..." -Ron Patton, Paranoia Magazine "Turns Fortean and ufology upside down..." -Doug Skinner, johnkeel.com "The key to unraveling many mysteries..." - Ted Torbich, The Stench of Truth "Far ahead of its time..." - Keith Hansen, Vyzygoth's Grassy Knoll

It is generally a good idea to return to the classics in any genre. This also goes for UFO literature. Rereading a book after ten or twenty years is a rewarding experience. You will discover new data and ideas you didn't notice before. The reason, of course, is that you are, in many ways, not the same person reading the book the second or

third time. Hopefully, you have advanced in knowledge, experience, intellectual and spiritual discernment. A good starting point is to reread the UFO classics of the 1960s, in order to understand the deeper mystery involved in what happened during that era. Otis T. Carr (December 7, 1904-September 20, 1982) first emerged into the 1950s flying saucer scene in Baltimore, Maryland, in 1955 when he founded OTC Enterprises, a company that was supposed to advance and apply technology originally suggested by Nikola Tesla. Carr claimed that he was a protegee of Tesla. Carr patented a flying saucer, and asserted he was working on a full-size

version that could fly to the Moon and return in less than a day, using two counter-rotating metal plates (Ezechiel Wheel), spinning electromagnets and large capacitors, which when spinning charged and powered by a battery, which became "activated by the energy of space." Carr's scheme resembles slightly earlier proposals by John R. R. Searl and Thomas Townsend Brown. Carr also claimed to have invented "The Gravity Electric Generator", "The Utron Electric battery", "The Carrotto Gravity Motor", and "The Photon Gun". Great, but unpretentious, these documents presented in this publication are a rare symbols by

themselves of what was going on in those early years of the modern UFO era. This edition has the following parts: INTRODUCTION; Otis T. Carr Photos; Otis T. Carr Newspaper Articles (1957-1962); Return of the Dove (1958-59)-Part-V-The Nikola Tesla Story; OTTC ENTERPRISES INC BROCHURE; Otis T. Carr Amusement Device Patent (1959); Frontier City USA; Project U.F.O Sighting 4004: The Howard Crossing Incident-Sci-Fi Episode aired 19 March 1978; Carr and Aho Set Date For Their Moon Flight-Flying Saucer Review (NOV-DEC.1958); Late Report on Otis T. Carr-Saucerian Bulletin (June 15, 1958); The Ufologer(March-April, 1958); Otis T. Carr FBI

The Mystery of the Flying Saucers Inner Light Global Communications

BETWEEN THE PEOPLE and government today lies a double standard of morality. Anything remotely scientific has become by government definition a matter of military security first; hence of secrecy, something which does not breed security but fear. If we see anything unusual, even in the skies, we the people must either freeze our lips, like a Russian peasant at the sight of a commissar, or give our names, addresses, business connections, and testimony to be screened and filtered by anonymous intelligence

officers. Feared and respected by many people, these anonymous creatures can deny what we say, ridicule what we say, and sometimes (and in an increasing number of countries) jail us for what we say, especially if our timing does not match to the second their intended official pronouncements on the subject. Just as the communists have made a god of their President, we have begun to deify our faceless spokesman. Both should be fought by free men as word oppressors. Without going into it at too great a length, this all ties up with the loss of faith in formal religion, which forces people to cling to the New Sublimation. The only way for a free people to fight such

encroachments on free inquiry is to say in advance, "What I am telling you will be denied," or "This is true but those who say so now will be branded as dreamers, and if they persist, as liars."It completely destroys American sportsmanship standards when we, the people, stick to the rules while an opposing team of censors who have usurped our rights are permitted, by their own handpicked referee, to pull rabbit-punches on defensive play, hamstringing us from the rear if we seem to be running well in an open field, and even machinegun the ball in midair if we are kicking an almost certain field goal. There is only one thing to do under such a setup.Expose their

tactics.

Phenomenon Princeton University Press

During the late 1960s and early 1970s, when he was subject to nonstop surveillance and harassment from both human and supernatural spooks, intrepid Fortean investigator John A. Keel made extensive field notes concerning

the phenomena he was confronting in West Virginia and New York: UFOs, Men in Black, creature entities, ultraterrestrials, and odd coincidences and synchronicities. The result was a series of concise, thematically related reports, many of which were incorporated into magazine articles for Saga, Fate, Flying Saucer Review, and Flying Saucers magazine. In those articles, Keel unraveled threads discussed in his classic books "Operation Trojan Horse," "The Mothman Prophecies," and "The Eighth Tower," which were written soon after. Utilizing occult lore, recent scientific research, and direct personal investigation, Keel drew back the curtain on the mind-

blowing nature of our terrestrial reality. In this volume, we look at Keel's favorite articles from Flying Saucers magazine, which was published and edited largely by Ray Palmer. Keel went on record as saying that he thought Palmer was the "father of ufology," and he helped Palmer by submitting many articles to the magazine, and even helping with editing chores whenever possible. This special Keel-curated edition features interesting articles by Keel, Palmer, Brad Steiger, Gray Barker, Brent Raynes, Peter Guttilla, William Cullen, Larry Bryant, Alois Knapp, Tom Lingham, Jennifer Stevens, Erich Aggen, Jr., Dennis Stamey, Alberto Perego, T. REVIEW OF BEHIND THE FLYING SAUCERS THE TRUTH ABOUT THE AZTEC UFO CRASH

- I had basic Greek down about 10 years ago & what you don't use.... These disks are good for basic "how are you" type conversation. They are very repetitious which can be nerve racking the first lesson is hi; I understand Greek/English; I don't understand Greek/English; miss/sir...the second lessons is the same along w/ the third which also changes what you just learned into masculine/feminine. They also have different

pronunciations that what I already new which is just a dialect issue. I gave them to my friend and she seemed to like them as well for a refresher. Would I learn if I didn't know any Greek? Definitely

- I put this vile book back on the shelf almost as soon as I picked it up. This is typical multicultural liberal garbage, and the author is nothing more than a mouthpiece for the open borders lobby, Wall Street Journal cheap labor profiteers, guilt-ridden brainwashed liberal moonbats, one world government utopians, and the huge fifth column of minority and ethnic agitators who loath the White Christian majority. I'd

like to see the author making his inane case to the HUNDREDS of thousands of victims (and their families) of rape and murder by the hands of illegal aliens. Let HIM pay health care costs of illegals in emergency rooms. Let HIS children sit in "bilingual" classrooms crammed with tens of Hispanic kids who don't know a word of English, who will drop out and join a gang at the age of 15. Let HIS house lose value as a result of illegals invading his neighborhood and sending property values plummeting. Me, I'd rather pass these "blessings of diversity." Too bad 1 star is the lowest rating, because this garbage doesn't even deserve 1/10 of a star.
