REVIEW OF PRINCIPLES OF COGNITIVE NEUROSCIENCE SECOND EDITION

- I think all the people should read this book if not for anything else then to learn how to appreciate different musical styles and cultures. Every ethnomusicologists must.

- I just finished reading "On Beauty" after several friends recommended "White Teeth" and I found Smith to be an enormously talented writer who does not humanize her characters. It is hard to say that she does not flesh them out, we do hear their voices but we cannot relate to them except as objects of Smith's satire. There is nothing wrong with writing a purely satirical work but she is trying for something more here and it does not work. After introducing her characters we are ready to enjoy their humor, their failures, their triumphs and eventually their redemptions but, alas, the book ends on a note of cheap revenge that is decidedly unpleasant. She makes some attempts to honor these characters but Smith's basic cynicism does not allow her to do so. I believe Smith believes she is transcending stereotypes by portraying a mixed race marriage and young black intellectuals. Why is it then that Howard, a white, working class man ultimately fails in his dream career and as a family man, that a beautiful, smart black student is portrayed as a sexual predator destroying lives around her. Did Smith so hate her time in America that she has her character Victoria destroy so many lives from the minute she lands here? And on and on with each character whether black or white. One wants to like these characters but she just wont let us. Two scenes I did think were brilliant - the way Claire, the teacher of poetry interacts with her students especially during their evening at The Bus Stop, and the department head making introductory remarks at a faculty meeting with a one line cameo appearance by Smith herself. Ultimately, this is a mean book with mean characters that leaves a bad taste in one's mouth. I would have given it one star only that Zadie Smith is a brilliant writer. I would say to her "channel your anger, give us believable characters that we can care about". Zadie Smith needs to grow up.
