REVIEW OF NEW HOLLAND TN60A SERVICE MANUAL

- Mr. Lipton did a wonderful job in writing this book. He is a plumber and thus, he has a layman's way of writing which is much better than alot of "professional authors" in my opinion. Plus, he has a refreshing outlook on archeology having found many things in his profession. Mr. Lipton presents a very good case, in that, he produces quite a large amount of evidence which supports his hypothesis. I hope he writes another book as I'll be the first to buy it. He's a great writer and this book is a must read.

- Brecht's "The Caucasian Chalk Circle," written in self-imposed exile towards the end of World War II, is a story within a play, in which a bard, or singer, interrupts a group of Caucasian farmers arguing over ownership of land that has been ravaged by Nazi tanks and entertains them with a relevant tale of yore. In a city called Grusinia, the Governor is executed in a coup and his wife flees for her life, abandoning their baby son Michael, who is picked up by a humble kitchen maid named Grusha. Having recently betrothed herself to a soldier named Simon who is away on duty, she sets out on a cross-country journey with the infant to get help from her brother, a farmer in a distant village.Lavrenti, her brother, suggests she get married immediately to avoid suspicion that the baby is hers out of wedlock, and the most available candidate is a local wretched peasant. After living with this man for a couple of years, Grusha is apprehended by soldiers who have come to take young Michael, the sole heir of the deposed Governor's estate, back to Grusinia. The case of Michael's custody, contested by the Governor's wife against Grusha, is brought to trial, where the judge, a drunk named Azdak whose unofficial appointment to this position is a farce, decrees that the boy will be placed inside a circle drawn with chalk on the courtroom floor, and that the woman who is able to pull him out of the circle is the real mother. (Study the judge's exact words when you read this.)Although the story is of medieval Chinese origin, Brecht's play is a sort of refashioning of the Biblical anecdote about Solomon and expands the idea by supplying a whole backstory to the women's argument. Solomon's judgment is accepted because his wisdom is universally considered to be impeccable, but what of a man like Azdak who functions on whim more than on wisdom? The ending is subtly brilliant in the sense that the outcome of the contest is subject to semantic debate (whether you think the judgment is fair or logical or contradictory depends on how closely you read the judge's words), but also in the question of irony or sincerity in the suggestion that true justice will be conferred by nature rather than by man.
