REVIEW OF SATURN VUE SERVICE REPAIR MANUAL

- Written in a friendly down to earth (no pun intended) style, this book contains gardening advice from both a practical and witchy perspective (with the emphasis on gardening). It includes detailed information on what kinds of plants do best in sun or shade, with the focus being on those that a witch would use most (moonlight gardens too). Tying into this are chapters on flower, tree and grown cover magick. The chapters on flower folklore, faery magick and specialty gardens are "good to knows", especially for green witches. Those on the Esbats and Sabbats contain something for any witch interested in working with their gardens and what they produce during these times.

- It reads like a Dungeons and Dragon adventure. This new land Mr. Greenwood created is called Asmarand. And this story takes place in the region of Aglirta where the King has been in a magical sleep for centuries, and Barons fight for power. This is the world our band of heroes is formed in. The band consists of The Four, gruff warrior Hawkril, sly thief Craer, grumpy healer Sarasper and beautiful sorceress Lady Embra Silvertree. They have reckless adventures that seem to never end. And the battles are magical. Worth the read, but not sure I will continue the series unless the book just falls into my hands.
