So what are you waiting for? Beginning your Dont Give Up Chords downloading and install trip today and experience all the advantages and convenience that the digital world of publications has to use!

REVIEW OF DONT GIVE UP CHORDS

- This book became popular not only because of Pooh or Tao, but because of the explanation of the "3 Vinegar Tasters" scroll painting in the book. Before this book became popular this famous painting was unknown, and because of this book, people know what it is.(...)That is the painting described in the book and as you can clearly see, one of the good points of this book was

explaining the three main philosophies of Taoism, Confucianism, and Buddhism in China.I recommend that readers visit the site that details the relationship between Taoism and the other philosophies and see how Tao of Pooh fits Taoism in there.

- I was searching for a basic introduction to Tao, and being a Pooh lover from way back thought that this would be a good place to start. While I learned some of what I was searching for - the focus on nature and simplicity - there was a recurring tone of negativity that bothered me to the point that I couldn't enjoy the book. What troubled me is this: Hoff repeatedly illustrates the virtues of his chosen philosophy/religion by denigrating other religions.I'm not much of a fan of "organized religion", so the thought of criticizing other religions doesn't upset me per se: it's just that I find no place for it in a book like this. This should be about the uplifting, enlightening spiritual values of Tao. The recurring stabs at what he obviously views as competing philosophies struck a very discordant tone. I couldn't get past this to enjoy the educational elements of the book.
