With these ideas, you can discover the appropriate National Geographic Field Guide To Photography Digital publication

recaps for your interests and preferences. Happy reading!

REVIEW OF NATIONAL GEOGRAPHIC FIELD GUIDE TO PHOTOGRAPHY DIGITAL

- A classic British novel written by Charles Dickens, *Great Expectations*, is a great novel with a very good moral at the end. The main character, Pip, is a very dynamic character. His morals and thoughts change throughout the book. In the beginning Pip grows up living with his aunt but then he gets an anonymous benefactor who helps him grow up a new life as a boy with a good education and living as an upper class citizen. Throughout the book we see Pip's struggles and he overcomes them. This

book draws one in so they are not able to put it down. A good twist at the end.

- I never wanted to read this book, but a friend convinced me when he learned that I loved Pip on South Park (I found the little nerd funny). This was the best advice I'd ever taken. Reading this not only made me love Charles Dickens, but gave me a late start on loving reading in general. Granted, it's a difficult book to read. Dickens packs his book with descriptions and long sentences (yet every word is important and helps with understanding) and he's not easy to get through. Yet Dickens still, with all his flaws, remains a masterful storyteller.

His characters aren't deep, but they're relatable and memorable. I love Pip, Estella, Miss Havisham, Joe, Herbert Pocket, Magwitch, and Aged P, and even though I've read this book a long time ago, I love them just as much now as I did then. It's a shame that people have to read this for school (I did so for my second time). It's a wonderful story that should be enjoyed by itself. If you haven't been made to read it, do so now. Push yourself through it and take your time (it took me a month to finish the book myself). You'll be glad you did. Assignments make you rush and over-analyze stories, and Dickens should never be read that way.
