REVIEW OF ZF ASTRONIC WORKSHOP MANUAL

- We have an autistic grandson, now 7. He is beautiful, he is a

teacher, a joy and inspiration - and a sweet challenge. I recommend this book. God bless in a special way all parents of autistic children.

- I would rate this book higher if I wanted to be a player or whatever. There's a lot in here that's useful for someone like myself who's just kinda shy and would like to meet new people - but ultimately I don't like all of the strategising - don't get me wrong, I may wake up one day and realize that maybe it's really necessary in today's world. The truth is I haven't really had a lot of problems attracting attention but I haven't had any practice going out and "picking up". Unfortunately, my last breakup is accompanied by the fact that I no longer have the convenience of large numbers of classmates to interact with means that meeting someone is a little tougher now.
