### 1000 preguntas y respuestas TODOLIBRO

Este libro es una valiosa ayuda para preparar las evaluaciones de bioquímica mediante exámenes con preguntas de múltiples opciones de respuesta (tipo test), que son la modalidad más frecuente en Bioquímica General, Bioquímica Médica y materias similares en la mayoría de facultades de 'Biociencias'. En estos exámenes no basta con 'haber entendido y memorizado' los contenidos, sino que es crucial el haber practicado muchas veces el ejercicio de 'ir a buscar en la memoria' aquello que se nos pregunta, discriminando entre respuestas muy parecidas que pueden inducir a error (para ello están pensadas). Enfrentarte a estas cuestiones muchas veces antes del examen reforzará tu capacidad memorística a medio plazo y con toda seguridad tus resultados. Las preguntas están agrupadas en 19 bloques de contenidos. Dentro de estos bloques, para simular las condiciones de un examen, no he realizado orden alguno (excepto en el metabolismo glucídico, el lipídico y la fotosíntesis). Cada bloque está pensado para ser utilizado después de un estudio exhaustivo de sus contenidos, recogidos en la bibliografía de referencia que te indico o en el material aportado por tus profesores. Cada bloque está preparado igual que preparo mis exámenes. Es fruto de un metódico repaso de la bibliografía indicada y recoge desde las cuestiones más obvias hasta las más específicas, con el fin de llegar a 'que no quede nada por preguntar'. Seguramente los profesores encontraréis también buenas ideas para esas tardes en las que tienes que preparar la prueba y no sabes qué preguntar o de qué modo hacerlo. Un par de aspectos técnicos: i) se ha elegido la modalidad de 5 opciones de respuesta (la más habitual). En ella, sabes que cada respuesta errónea resta 0,25 respuestas correctas. ii) cuando una respuesta correcta está englobada en otra más genérica y también correcta, la opción válida es esta última. Soy doctor en Biología, especializado en estructura de macromoléculas, simulación molecular, bioinformática, bioquímica computacional, diseño de fármacos,.... Compagino (cuando puedo) la docencia en secundaria con la docencia universitaria. He sido profesor asociado de Bioquímica en la Universidad de Barcelona y en la Universidad de Castilla-La Mancha. En mi correo electrónico ([joseramblas@gmail.com](mailto:joseramblas@gmail.com)) estaré encantado de responder a cuantas dudas te surjan al trabajar con este libro. Espero que ayude a tu nota y a tu aprendizaje.

## REVIEW OF 1000 PREGUNTAS Y RESPUESTAS

- I'm not a huge fan of Bones, I like Kathy Reichs, and I love the clinical language used in her books. Unfortunately, I get so hung up on the silliest of details. In this entire audiobook the reader actually mispronounces a word and for about 5 minutes I was stuck on that & had to jump back to listen to what I missed. Otherwise, though I'd rather have the time to read them, this & other audiobooks are great for the busy.

- An excellent read. I really liked Deja Dead, but got hung up with all the French. The French is there this time as well, but not to the degree as in DD. The plot moves strongly and Ms Reichs develops several interesting subplots as well. If you liked DD, I think you will like this book even more.
