REVIEW OF HISTORY OF SINDHI LITERATURE 3RD REPRINT

- I thought the premise behind the book "Collapse: How Societies Choose to Fail or Succeed" was interesting so I decided to get the book and try reading it. The book is actually very interesting. I enjoyed the reasoning in the book that it is societies that choose to fail or succeed. Diamond points out that in nearly any society, the choices that are made and the reactions to the repercussions of those choices are what help a society either continue forward or dwindle away to nothing. I found all of his explanations of different society intriguing. I feel like I know those societies better - almost as if I had visited them myself. I do think that sometimes the descriptions or explanations went a little long but I pushed through those parts and was rewarded with a fairly good read. One thing that may hurt the book is that it is 560 pages of fairly small type. This is not something you are going to finish in a week of leisurely reading. But I think it is worth the time it takes to read the whole thing.

- I read this book on my kindle and it was hard to put down. Like many have stated there are many misspelled words, however that didn't bother me because the storyline was so enthralling. In my opinion this book is definitely worth the read.
