## **REVIEW OF HUMAN BIOLOGY 10TH EDITION STARR MCMILLAN**

- After reading the sample it became quite apparent that Schnoebelen only knows how to use a search engine. He claims to have been a member of the craft since the 1970s, reaching very high in rank as an Alexandrian in just under a year. (Which just so you know, usually never happens.) Now there are honest

people who do dabble in Wicca for a while, realize it's not for them and end up going back to what's comfortable. Schnoebelen however, is not an honest person. He mixes up terms, misuses others, very simple, basic things that is very telling of someone who claims to be very experienced in the craft. The only thing this author is experienced at is using google. Really, it is very easy to tell that all this author did was a few quick google searches to grab enough "information" on the craft to make it sound like he knew what he was talking about to try and gain confidence in his readers so that he could write what he really wanted to say. Which is nothing but lies and a lot of hate on a religion he really knows nothing about. Also this book was published by Chick

Publications, INC., which should give a huge warning sign to the legitimacy of his claims. Anyone who has ever read any of the infamous Chick-track comics knows that they're wild, over dramatized propaganda created to spread hate to Wicca, new age healers, Catholics, Dungeons and Dragons, and anything that isn't or questions their exact kind of Fundamentalist Christianity. These kinds of authors, Chick and Schnoebelen both, have lost the meaning of the teachings of their God and their religion that they preach so heavily about. Is it too much to ask these Christians to "Love thy neighbor"?

- my girlfriend who has 5 and 2 years old sons suggested that I should get this book in order to understand a nature of boyhood. I also have 2.5 year old son

and 7 months old baby. My eldest son is now in a "terrible two" stage. This book helps me understand why he does what

he does, why he does the opposite of what I say, etc. I told my husband to read it too, so he can be more patient and understanding.
