REVIEW OF SEARCH RESULTS TRANSNATIONAL MANAGEMENT 5TH EDITION EXAMS

- As an aspiring writer I am aware that this book has its flaws, but I love it regardless. The story haunts me. I can go years without touching it, but still I think about its unnamed protagonist often. And when I do go back to the book, the ending leaves me utterly flabbergasted each and every time; this even though I have never forgotten what happens. The funny thing is, I have tried reading another book by Alan Saperstein, and I found it truly dreadful and put it down soon after picking it up. But there is something about Mom Kills Kids and Self that I just cannot get enough of. It is a chilling experience, to see inside a man's head as he goes insane--as he lives inside his house alongside the bodies of his wife and children for days. I love the thought of someday publishing a book that reaches a wide audience, that makes a lot of money. But then I think about this book, and I know I would give up that fame

and fortune just to know that my work has touched someone so profoundly as this one has touched me.

- Legal Planning for Your Parents is an easy to read resource for families needing guidance on elder care issues. The booklet provides information on legal issues facing families who are planning ahead for their parents long term care, and those who need to make informed decisions quickly. The booklet also helps you recognize the emotional issues of planning/caring for your parents as a adult child or family. Legal

Planning provides practical tips, a place to write notes, and resources for more information. While this booklet does not replace the advice of a legal professional, it does help you figure out what you need to ask and how to go about advocating for your parent(s) in the legal and health care system. I'd recommend this booklet for adult children and their siblings, work/family or human resource professionals, and companies who provide resources to their employees to manage family issues and work.
