REVIEW OF HORNADY RELOADING HANDBOOK 9TH EDITION

- I love to cook yet I barely look for cookbooks. Interestingly, my boyfriend starts cooking and he is the one finding this book excellent to follow step by step (and he's never cooked for anybody at all!). The book also gives you an overview on essential ingredients, tips for variation and even wine recommendation. For the person like him - has no ideas what will turn out from a recipe, this book is perfect with its pictures and detailed description. He has tried more than half of the recipes and honestly, those are all quick but great pasta dishes!
- Miss Gerritsen has taken the medical thriller to new heights with both "Life Support" and her previous bestseller, "Harvest." She weaves an intricate plot, fascinating science and wonderful characters to create a fabulous story. And as if that weren't enough, her writing is breathlessly clean and clear, pulling you effortlessly through the book. I read it in one sitting. Outstanding!!
