Sign up with book clubs, join on the internet forums, and get in touch with fellow publication lovers via book downloads. Share your favored checks out and referrals, and find brand-new titles that you could not have actually located or else.

So what are you waiting on? Begin your Demag Ac 100 Crane Operator Manual downloading trip today and experience all the advantages and comfort that the electronic world of publications needs to offer!

REVIEW OF DEMAG AC 100 CRANE OPERATOR MANUAL

- Its been a while since I read this book, but I thought it was excellent. It was part of a modern literature course I took at my high school, and it was my favourite book out of the whole semester. One Hundred Years Of Solitude really opened some doors for me. World literature and more importantly, Magic Realism called to me. As a literary work, it is important because it marks the beginning of Magic Realism as a genre. The plot is incredible and my friends and I have spent countless hours discussing what, exactly, the point of this novel is. This only goes to show that it is intelligent. I would recommend this novel to anyone. It's well worth your time and I can hardly wait to read it again.

- I'm one of those who found One Hundred Years of Solitude

fascinating and enjoyable. The style definitely made it for me; Marquez's prose is misty and mythic in a beautifully descriptive way. I never lost interest in the story. It's told in an unusual manner, more like an oral history or legend than a written work. After reading it, I could see why Marquez is called the "South American Faulkner"; the style in *One Hundred Years of Solitude* can only be compared to a book like *The Sound and the Fury*. I have called it misty, but it's deeper than that. The haze over Macondo is analogous to the haze of memory itself. I was thoroughly satisfied and amazed by the book. For me to attempt

further description of its marvelous intricacies would be to rob you of the full joy of reading it. I was disappointed, though, when I sampled some of Marquez's other works. *Evil Hour* failed to hold my attention at all, and the only novel that has even come close was *Love in the Time of Cholera*. Marquez was a good author and journalist, but he didn't have the consistency to maintain the style he achieved in *One Hundred Years of Solitude*. I would wholeheartedly recommend *OHYoS* to anyone interested in this book or this author, but I would simultaneously warn him or her not to expect to find another book like it. Perhaps it's best that way.
