anticipate supplying you with exceptional solution and diverse alternatives for many years to find.

## **REVIEW OF RENT TO RENT YOUR QUESTIONS ANSWERED**

- I read the hyped up reviews and bought the book, but it's really your standard "sword & sorcery" epic. Great chunks of it are lifted from The Lord of the Rings--dwarves, elves, a wise old wizard, a mysterious quest and so on. It's the same old drill. The lead character Eragon isn't remarkably likable, either. Seems to be self-righteous teenager. The book is fine as a diversion, but lacks the humor to make it anything out of the ordinary. It lacks the wit of Harry Potter, the mystery of The Da Vinci Code (great book!), or the true epic power of Rings trilogy. If you like this kind of banal quest fantasy, it's fine, but otherwise, look elsewhere.

- I thought this book was good despite the lack of new ideas and obvious coping of different authors such as Robert Jordan. Really I guess its cause I just like to read. There is no question that their are worse books and better books out there but on all accounts I found this book to be very enjoyable. However i do not believe that he really copied tolkien all that much. Besides the fact that the main character starts out on a journey, wait what fantasy novel doesn't start like that. Then again tell me what fantasy novel doesn't have at least one idea, which could be arguably traced back to tolkien. Loll personally thought it was entertaining.
