Don't you love those moments in your course when students are fully engaged? When the Aha! revelations are bursting like fireworks? The Financial Accounting author team has developed a concise and well-organised learning framework to show students that accounting consists of three major processes: measuring, communicating, and decision-making. By consistently tying each lesson into this framework, instructors can significantly improve student engagement and outcomes. For the fifth edition, the authors have retained popular digital features such as General Ledger Problems, Excel Simulations, and algorithmic end-of-chapter questions, while also including new content based on skills today's students need. New features in the fifth edition include Applying Excel problems, enhancing decision maker's content by developing auto-graded cases, and expanding video content with new Concept Overview Videos. Building on the success of the first four editions of Financial Accounting, this new edition will motivate, engage, and challenge students. Paired with the market-leading power of the Connect platform, Spiceland, Thomas, Herrmann, Financial Accounting will truly illuminate the financial accounting course for each student.

The Horngren System of instruction replicates the classroom experience by providing more "I get it" moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: Students

understand (or “get it”) right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. The Horngren system helps to recreate the “I get it” moments outside of class--keeping both you and the students on track.

REVIEW OF INTERMEDIATE ACCOUNTING 7TH EDITION SPICELAND EBOOK

- I think this book was great and plan to read it again soon. It leaves you on the edge of your seat the whole story and the twists and turns in the plot will leave you wondering what will happen next. It's a real page turner and I recommend it to everyone.
- You must buy this book. It is packed with learning activities for children. One example: The section on caves in this book has your kids creating stalactites (it's not *too* messy, Mom) and discovering how surface precipitation dissolves limestone to create caverns. I love hands-on books, and this one has plenty of science projects for your kids to do with (and this is important) MINIMAL PARENTAL HELP. Your seven-year-olds and up will be on fire to learn more. Even littler brothers and sisters can get in on the excitement with rock collections and plate tectonics... this book can't be beat.
