## **EDITION V GANESAN**

- Well what can I say, Mary B. Morrison has done it again. Sequels usually [are not as good as the first book] but not this one. I was just as captivated with Never Again Once More as I was with Soulmates Dissipate. This book was witty, nostalgic, sensitive and emotionally captivating! I really became attached to the characters and

sometimes felt as if I were living inside the book. If you've already read Soulmates Dissipate, I promise you...you will not be disappointed with Never Again Once More!

- This book gives you everything you need to know about the biogeography of Africa and many of the animals found in Africa. Pictures of the animals and land of Africa make it especially helpful.
