REVIEW OF E COMMERCE STRATEGY DAVID WHITELY

• Through out the centuries, men have preached altruism and unity. They were Big Brother. Through out the centuries, men have preached equality and hipocrosy. They were Big Brother. Through out the centuries, men have preached non-thought and conformity. They were Big Brother. Through out history, a long line of men have stood, beginning with Plato, continuing with Stalin, and propagated today by every man, woman, and child who believes that 2+2=5, that A is not A. These men have stood for Big Brother, have stood for Ingsoc, have stood for evil, and have stood for 1984. George Orwell's masterpiece stood for all that which conflicted with those ideals: for love, for happiness, for individualism, for ego. On the surface, Orwell paints a picture more sickening, and more chilling to any person who believes that they are, that they are not a group, not a consortium, but exist in and for their own right. This is not a Utopia; this is what could happen, not what has happened. It is a testament to those who will not take the easy way out, will not conform. It is instead a tribute to those who rage against the dying of the light, for those who think, and those who know that 1984 can be stopped, by those who have stopped it through out the centuries: those who will not sanctify

the punishment of virtue. The hero of this book is not Winston; it is the old prole' hanging out laundry, and making the song written by a machine a thing of beauty. In the end, the proletariat must rise; for they are not the lowest class, but the highest. The party members consider themselves higher because they have force, and therefore, by their reckoning, power. But they do not; they have nothing; everything is the Party's. But they are not the party; Big Brother is the Party. In the end, the Prole's are the powerful ones, for they know the beauty of reality, and of the of the simple phrase, "It is mine.

- Those last four words will make you CRINGE! Of course, they mean NOTHING to you if you haven't read the book. This is by far the most depressing book I've read. Stephen King's Stand can eat its heart out. A very frightening portrayal of life without privacy. Microphones in parks, surveillance mechanisms in all restaurants. Betrayal, love, hate, etc. I've read this book once, but I don't think I need to read it again, its effect was that powerful. A friend of mine also found this book depressing. Orwell does an outstanding narrative towards the end which contributes to the cringing part at the very end. I've read this book quite a while ago but its fascinating how much I remember it. This book shouldn't be ignored. Read it once, at once.
