So what are you waiting for? Beginning your Learning Javascript 2nd Edition downloading and install journey today and experience all the advantages and comfort that the electronic world of publications needs to offer!

#### REVIEW OF LEARNING JAVASCRIPT 2ND EDITION

- Don't take the star rating wrong - this is as good as any of the other books in this series, but this edition (Quiet Vision Publishing - paperback, printed in 2000) is the cheapest printing of a book I've ever seen. Only about 20 pages into it, pages started falling out of the back. The type is huge and goes all the way to the edge of the page so your thumbs are constantly in the way while you're trying to read, and there are typographical errors like using two hyphens instead of em dashes. I know they make an electronic version of this book. As part of my job I convert a lot of print-intended content to digital publishing formats, and that's what usually happens to em dashes during that process, so I almost wonder if they just printed out their digital version and bound it. It looks like it was printed on a laser printer (especially the terrible cover illustration which looks like it was drawn by a 12-year old), and the fonts look like they're just PC-standard 'Times'. There are also several footnotes, which in the original edition that I read years ago were placed at the bottom of the page they were referenced from. In this edition they're in the back of the book.

- as in any language, idiomatic expressions are very important to learn and understand.this book gives clear and concise definitions of many common spanish "frasesidomatica". Very helpful
