#### REVIEW OF AUTODESK INVENTOR 2015 SHOWCASE

- I was so impressed with Patai's book THE ARAB MIND, that I read this one, too. But this, while interesting, is not as well organized, and is a bit bloated. I think he was learning on this one, to succeed better with THE ARAB MIND. Nonetheless, an interesting and informative book.
- This is a western about a family in Wyoming and about a drifter who rides into their lives. It is told in the first-person by a boy - the son of Mr. and Mrs. Starrett. I think this story is amazing. It grabs me and holds me on the edge of my seat. The author does a great job of deepening each of the main characters - except for Shane . . . Shane's past remains mysterious. I have read this more times than I can count. This is a story about a man who cannot avoid his past. About a boy who learns how to be a man. And a husband/wife who show the kind of guts it takes to put down roots in some far-away land. I am deeply inspired every time I read this.
