REVIEW OF SHADOW LAKES HOA A RESIDENTIAL COMMUNITY IN BRENTWOOD

- The photography and how water is

impacted by various things is truly wonderful stuff. However Emoto's conclusions, his surmising and projections about the world is offered with surprisingly poor reasoning as he leads the reader down the paths he has travelled. For all we know all objects are as affected by our thoughts and words as water appears to be, perhaps water just provides a wonderful window into this. But Emoto has water as something sacred suggesting that it is something from another world. It may well be but the conjecture is presented without foundation.

- This is a book for serious students of the deeply mystical. It is not for everyone. The average fundamentalist Christian is much too low on the spiritual totem pole and too hypnotically programmed to be able to understand it.
