## REVIEW OF THE UNIVERSE HAS YOUR BACK TRANSFORM FEAR INTO FAITH

- "Lord Jim" is a morality tale and a story of individual redemption - Jim, as a junior officer in the merchant marine disgraces himself in a moment of crisis and spends the rest of his short life running from the resulting odium and attempting to redeem himself. Which he does, in his own eyes anyway, but his attempts to apply an individual code of honor when making decisions on behalf of others ends in tragedy. The first half of the story - the tale of Jim's disgrace and the immediate consequences - is the strongest part of the book, with the second half of the book (and some of the rich descriptive language) slightly drawn out and tedious in comparison. Unlike some reviewers, I did enjoy the technique of Marlowe narrating the long, drawn out tale of Jim to his peers - in my experience, this is the way men left to their own devices tell morality tales about their own craft. I have certainly heard enough similar stories about the failings or virtues of soldiers I have never met during long waits at an LZ or during deathly dull nights on watch (and told a few of my own as well) to appreciate why Marlowe would tell such a 'yarn' in this way, and why it would be so eagerly accepted by his peers. Readers who are only familiar with Conrad's Heart of Darkness may find Lord Jim a bit drawn-out by comparison, and it may have been an even better book if only the first half of the story was told. It is still a thought provoking read if you want to give some thought to the meaning and practical application of honor, responsibility and redemption.

- An absolutely brilliant work. Keep in mind that many of the bad reviews here were for a different version/translation of this book. This one is almost twice as long and sticks far better to the author's original work. This collection of stories is the perfect bedtime reading. You can finish off each story in an hour or so and drift to sleep with dreams of adventure and travel. The author relates the early days of air travel, when the pilots were quite often taking their lives in their own hands each time they took flight. Crash landings in the Sahara were part of job, and rather commonplace for those daring pilots that dared to carry mail and supplies over the great desert. The author writes in a simple and magical prose that carries all readers to the co-pilot seat on these amazing true adventures. It is rare to find an individual who lived such an amazing life as Saint-Exupery, and rarer still to find one who could write about their experiences with such clarity, beauty and detail. Highly recommended. A great treasure of literature.
