REVIEW OF PRENTICE HALL HEALTH ANSWER KEY CHAPTER 28

- This book is certainly for beginners. Book does not contain useful advanced or important advice that is needed daily basis for adminitrating ESX server. If you are administrating running environment, this book is not for you.
- Having read Relic and Reliquary by the author and Douglas Preston, I was expecting the same kind of wonderful, exciting, and highly entertaining thriller. Unfortunately, Lincoln Child really disappointed me. Only after wading through the first two-thirds of the novel did the action start to pick up and climaxed in a good surprise ending about the crazy computer and the mad scientist who created it. If you like techno-thrillers, it's passable, but in the case of this author, two writers collaborating are far better than this solo effort.
