REVIEW OF KENWORTH T300 S

- Victor Niederhoffer was an elite trader, equal or better than anyone mentioned in "Market Wizards" and "The New Market Wizards" with perhaps only a few exceptions. Mr. Niederhoffer is a consummate statistician; hence his trading philosophy is heavily biased towards various types of short term statistical relationships. However, I am guessing that he mainly relied on his discretion despite his mathematical proclivities. Victor paints a very doom and gloom picture for would be traders. It seems that he is projecting his failure onto us, the readers. I was also a bit irritated at his constant references to George Soros, whom we all know is the world's second best speculator. I do not know what compelled Mr. Niederhoffer to completely disregard a sound risk or money management strategy on that fateful day. Though I can say this, most people who take cheap shots at him really should not, they most likely do not even have an iota of Victor's intelligence. Many great speculators have blown out and come back with a vengeance. Look at Richard Dennis. If Victor Niederhoffer were to make a comeback, I am certain he would have no problems raising the necessary capital and in no time, reassert his dominance.

- If you expect something like Pit Bull, Reminiscences of a stock operator, market wizards (I&II), Trader vic, Investment Quotient etc etc, you will be worse off than even disappointed. This book takes you to anywhere but successful investment and trading. Talking about trading and investment there are plenty of good

ones out there for you to pick instead of wasting your time and money on this. I dont understand how some reviewers say it's a must for the traders or investors. Quite the opposite, as a professional trader, this one is excellent to sell short.
