**RMAN Recipes for Oracle Database 12c** is an example-driven approach to the Oracle database administrator's #1 job responsibility: Be able to recover the database. Of all the things you are responsible for as database administrator, nothing is more important than the data itself. Like it or not, the fearsome responsibility of protecting your organization's most critical data falls squarely upon your shoulders: Lose that data and your company could fail. Lose that data and you could be out of a job. Oracle's flagship database product fortunately implements a wide-ranging feature set to aid you in the all-important task of safeguarding against data loss. Recovery Manager, or RMAN, is at the heart of that feature set, and is the tool most-often used to initiate database backup and recovery operations. In this book, well-known authors and database experts Darl Kuhn, Sam Alapati, and Arup Nanda have created a set of examples encompassing the gamut of backup and recovery tasks that you might need to perform. Sometimes, especially when the heat is on, a good example is what you need to get started towards a solution. **RMAN Recipes for Oracle Database 12c** delivers. It'll be the book you reach for when that dreaded call comes in at 3:00am some dreary morning. It'll be the book that lets you sleep at night knowing that no matter what transpires, that you've done your job well and can recover from any outage. **RMAN Recipes for Oracle Database 12c** gets right to the point with quick and easy-to-read, step-by-step solutions that can help you backup and recover your data with confidence. What you'll learn Reliably back up and recover your database using Oracle's Recovery Manager Let Oracle Database manage your backup files via the Fast Recovery Area Automate backup and recovery tasks by writing scripts Troubleshoot RMAN problems and optimize RMAN performance Recover from the loss of a control file, loss of an online redo log, and from other unusual situations Who this

Would you like to forecast which direction will a stock move, how far will it go and when will it all happen? Do you want to ensure that your investment will profit despite being a beginner? It is now time to learn and succeed. Stocks are continuously moving up and down and trying to forecast the direction of a stock and when it is willing to happen is almost impossible for a beginner. That's why knowledge is fundamental when investing in stocks. In addition to knowledge, successful investors can also use the right instruments, and options are one of the most profitable. An option is a contract that allows (but doesn't require) an investor to buy or sell an underlying instrument like a security, ETF or even index at a predetermined price over a certain period of time. When determining the option price, you are betting that the asset will go up or down in price. The price you are paying for that bet is the premium, which is a percentage of the value of that asset. When used correctly, options trading offer many advantages that trading stocks and ETFs alone cannot. However, as already anticipated, these advantages have to be known and used in the right way. Options trading may seem overwhelming at first, but it's easy to understand if you know a few key points and apply them. This guide will show you these key points and then deepen on advanced strategies: "Options Trading This Book Includes: Options Trading for Beginners and Strategies. Find Here the Best Tips to Invest in the Stock Market and to Make an Income Out of It" by Matthew Morris. Every information contained in this book has been proved in the stock market. You'll only find strategies that are absolutely PROFITABLE and completely replicable, even to those who are only at the beginning of this journey. Here is what you're going to learn: - The fundamentals on how options are priced - Fundamental and technical analysis and some SPECIAL tricks that you apply during technical analysis - The mindset that you need to develop to start earning real money - Several "like-a-pro" strategies that you can replicate to get started - What you need to do to find a suitable and profitable market - The list of the of the mistakes that you could make and how to avoid them ...and much, much more! Thanks to this book you'll be able to move your first steps in the stock market and you'll start to finally forecast which direction will a stock move, how far will it go and when will it all happen. If you'll apply the step by step strategies contained, results will come soon. Scroll up and add to cart "Options Trading" by Matthew Morris, the guide that will allow you to start making money with the stock market!

Generally, publication reviews have a considerable influence on the literary world and are vital for both readers and sector experts. By sharing our ideas and referrals, we can aid to shape the future of the publishing market and support our preferred authors.

## **REVIEW OF STUDY FOR 1Z0 071 ORACLE DATABASE 12C SQL ORACLE CERTIFICATION PREP**

- This book is not one that you quickly get through. It is very slow and dull in both story content and happenings involved. I would not and have not recommended the book since I purchased it. Actually, I threw the copy I purchased out because I did not want to subject anyone else to the boredom! If you are one that likes slow moving and unreadable books, then this is the one for you. I did not find it the list bit funny or have any true emotion over the book at all -- except for the fact that it is a waste of money!

- Young Arthur, (known to everyone else as "Wart",) learns from his tutor, Merlin, stuff that he could only dream about before, coming to life before his eyes. Like watching Jousts, turning in to fish, birds, and other animals, and going on adventures with Robin Wood, (commonly known as Robin Hood,) but makes mistakes, gets injured, and learns from them. And all of this only helps in his future life, and his quest, which is his destiny. I rated the sword in the stone a 5 because it was an extremely good book, and the only things that might affect my judgment is the fact that sometimes they use old English. It is sometimes hard to understand because some of the wording is a little old, and, and stuff like that. But T.H. White is able to incorporate a story of King Arthur, and a story full of distinct, funny and odd people, (basically, a comedy,) in to one great book. Another reason that I think that it is a good book because T.H. White gets really in depth throughout the whole book, he can describe every detail, in other words, he can really "Paint a perfect picture." So all in all I say that if you are interested in King Arthur at all, you should definitely read this book! It does not matter if you are twelve or twenty-one, thirty or seventy, you will truly enjoy The Sword in The Stone. It is definitely a top ten on my list! If you like The Sword in the stone as much as I do, then I recommend reading The Once and Future King, also by T.H. White.
