## REVIEW OF DISCOVERING AUTOCAD 2013

- I read these books (all three of them) when I was in third grade. They were so popular at my school, the library had 4 copies of each book, and you still had to put your name on a waiting list. The first time i read them, I was totally freaked out (Steven Gammell's illustrations added imensly to the horror that Schwartz weaved), I remember not sleeping well the first night after I read them. Its now 8 years later (I'm a senior in high school) and I had completly forgotten that they existed. I stumbled upon them when I was searching for Stephen King (I've always been a fan of the horror genre) and ordered all three of them. If you're into fokelore and scary stories, these three books (Scary Stories, More Scary Stories and Scary Stories 3) are all must-haves in your collection. Enjoy, they're WICKED <pun intended> good :)

- Stroud got it exactly right. A realistic look at life as a police officer in a country as diverse as Canada. From the drug squad in Vancouver to policing the native reserves of Northern Ontario. Stroud tells it like it is not like Hollywood would have you believe it. I read this book in high school 14 years ago. It made me want to be a cop a decision I've never regretted. Read this book!!
