From the first dog to the first beefalo, from farming to CRISPR, the human history of remaking nature When the 2020 Nobel Prize was awarded to the inventors of CRISPR, the revolutionary gene-editing tool, it underlined our amazing and apparently novel powers to alter nature. But as biologist Beth Shapiro argues in *Life as We Made It*, this phenomenon isn't new. Humans have been reshaping the world around us for ages, from early dogs to modern bacteria modified to pump out insulin. Indeed, she claims, reshaping nature—resetting the course of evolution, ours and others'—is the essence of what our species does. In exploring our evolutionary and cultural history, Shapiro finds a course for the future. If we have always been changing nature to help us survive and thrive, then we need to avoid naive arguments about how we might destroy it with our meddling, and instead ask how we can meddle better. Brilliant and insightful, *Life as We Made It* is an essential book for the decades to come.

For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In *The Life You Can Save*, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. *The Life You Can Save* teaches us to be a part of the solution, helping others as we help ourselves.

12 Rules for Life Boldwood Books Ltd

Life Is What You Make It is about the author's experience with God and the universe, on how he accomplished his big dreams in life, and the lessons he learned along the way. He believes that even though his goals and problems may be different from yours, a solution is available for you just as it was for him. He doesn't believe that our dreams truly come from us alone but from the creator of the universe. If HE put it in us, HE has definitely a plan on how to accomplish it. His part, just like us, is to listen and follow without prejudice and to stop being the one who wants to be in control all the time. If this book helps the readers see that God's way does work, then the author has done his job.

We all have choices to make. What we sometimes fail to realize is that with each choice comes a consequence. Eric Daniels has put together a short compilation of his life story, the choices he made, and the life he has led as a result of those choices. Some choices were good ones and some were not so good, but each choice taught a lesson. If the reader takes even a few of these lessons and applies them to their own life, then the time spent reading this book will be more than worth it. In all, Daniels has 105 lessons. All the lessons keep bringing the reader back to the biggest lesson of all; *The Choices We Make, Dictate The Life We Lead*. Serious, funny, sad, and extremely real, this life story will keep you entertained as you learn what choices are all about.

Popular baking personality and lawyer turned baker Vallery Lomas was ecstatic when she learned she won the third season of *The Great American Baking Show*. However, her win was never seen by the world--Vallery's season was pulled after just a few episodes when one of the judges became a focal point in a *Me Too* accusation. Rather than throwing in her whisk and lamenting all of the missed opportunities she hoped to receive (Book deal! Product endorsements! TV show!), she held her head high and hustled--which resulted in her getting press coverage everywhere from CNN to *People* magazine. Now, Vallery debuts her first baking book. With 100 recipes for everything from Apple Cider Fritters to Lemon-Honey Madeleines and Crawfish Hand Pies to her Grandma's Million Dollar Cake. Vallery shares heirloom family recipes from her native Louisiana, time spent in Paris, *The Great American Baking Show*, and of course sweets and breads inspired by her adopted hometown, New York City. Things Are What You Make of Them Grand Central Publishing

In this New York Times bestselling "imperative how-to for creativity" (Nick Offerman), Adam Savage—star of Discovery Channel's *Mythbusters*—shares his golden rules of creativity, from finding inspiration to following through and successfully making your idea a reality. Every Tool's a Hammer is a chronicle of my life as a maker. It's an exploration of making, but it's also a permission slip of sorts from me to you. Permission to grab hold of the things you're interested in, that fascinate you, and to dive deeper into them to see where they lead you. Through stories from forty-plus years of making and molding, building and breaking, along with the lessons I learned along the way, this book is meant to be a toolbox of

problem solving, complete with a shop’s worth of notes on the tools, techniques, and materials that I use most often. Things like: In Every Tool There Is a Hammer—don’t wait until everything is perfect to begin a project, and if you don’t have the exact right tool for a task, just use whatever’s handy; Increase Your Loose Tolerance—making is messy and filled with screwups, but that’s okay, as creativity is a path with twists and turns and not a straight line to be found; Use More Cooling Fluid—it prolongs the life of blades and bits, and it prevents tool failure, but beyond that it’s a reminder to slow down and reduce the friction in your work and relationships; Screw Before You Glue—mechanical fasteners allow you to change and modify a project while glue is forever but sometimes you just need the right glue, so I dig into which ones will do the job with the least harm and best effects. This toolbox also includes lessons from many other incredible makers and creators, including: Jamie Hyneman, Nick Offerman, Pixar director Andrew Stanton, Oscar-winner Guillermo del Toro, artist Tom Sachs, and chef Traci Des Jardins. And if everything goes well, we will hopefully save you a few mistakes (and maybe fingers) as well as help you turn your curiosities into creations. I hope this book serves as “creative rocket fuel” (Ed Helms) to build, make, invent, explore, and—most of all—enjoy the thrills of being a creator.

Dear Friend, May I share a story that is very dear to my heart? It's a story of hillbillies and simple folk, net casters and tax collectors. A story of a movement that exploded like a just-opened fire hydrant out of Jerusalem and spilled into the ends of the earth: into the streets of Paris, the districts of Rome, and the ports of Athens, Istanbul, Shanghai, and Buenos Aires. A story so mighty, controversial, head spinning, and life changing that two millennia later we wonder: Might it happen again? Heaven knows we hope so. These are devastating times: 1.75 billions people are desperately poor; one billion are hungry. Lonely hearts indwell our neighborhoods and attend our schools. In the midst of it all, here we stand: you, me, and our one-of-a-kind lives. We are given a choice ... an opportunity to make a big difference during a difficult time. What if we did? What if we rocked the world with hope? Worth a try, don't you think? - Max Lucado One hundred percent of the author's royalties from Outlive Your Life products will benefit children and families through World Vision and other ministries of faith-based compassion.

REVIEW OF LIFE IS WHAT YOU MAKE IT PREETI SHENOY

- From Previous review: "Although "How to Lie with Statistics" is a bit dated (having been written in the 1950's), the principles it puts forth are still valid today--if not moreso than ever--and the material is delivered in clear, concise, and even entertaining anecdotes and illustrations."If the principles are still valid - "If not moreso than ever" - then how can the book be "dated"?I found the book to be fantastic.
- I learned a bit about redheads--not as much as I would have liked to, but it was well written
