### **REVIEW OF SUPERVISORY MANAGEMENT N4 STUDY GUIDE**

• When I was tiny, PBS was local, and small, and almost as new as TV broadcasting. One of my favorite hosts taught Sumi-e and Origami. By the time I was five I could paint a decent horse and

fold cranes, water-bombs, boats, and a bunch of others. I don't paint that well any more, and rarely get around to folding paper, but it was crafts and arts such as those that are the foundation of my being. And this lovely work has been my origami bible since I originally got it in hardback, lo these many years ago -- around 1971 or so. Some of the folds are brilliant, some exceedingly difficult to do well (no lack in the instructions -- there's Art in some of the details!) and some simple. The one I remember feeling accomplished with was Fred Rohm's "It's Magic" -- a rabbit standing on a cube, all out of one piece of paper. After many months, lots of paper, and failed attempts, I finally got adept at it -- and I still can't imagine how he figured it out! I forgot how to do this fold year's ago, but there are some examples of my attempts in private collections, and I get to visit once in a while. Maybe it's odd to be proud of a little bit of folded paper? Maybe. At one time I could manage "It's Magic" out of the liner paper from a pack of cigarettes -- that ends up at about an inch tall, when all's said and done. So anyway... last Christmas I had an extra passel of kids to gift, and decided to make the gifts more or less unified... and the one family with three youngin's and not much money got a bunch of origami papers and some books, peaking at the Dover Press edition of this wonderful collection. This may not be the best book to learn the essentials from, nor the most unified or complicated, or the greatest folds or largest scope, but it's dear to my heart, and I will always heartily recommend it in any collection.

• Mark Millar has taken the imagination on a different tour of duty this time, and come up with a winner again. Can this guy not create? Red Son and the concept behind it was radical in its thinking, and probably as unique a storyline I have read this year. All three collected works are published here in strong hardcover fashion adding to the unique industrial style of nostalgic Russian society in the 20th century. The artwork and style, of which I just touched upon, was refreshing, and unique. DC has hit upon a nerve, and found a good formula for major blockbusters (those involving storyline, good artwork, and either Batman or Superman) and making them more about the dilemma, the situation, the world, and not about the character themselves. Side Stories like Azzarello's Joker was unique in its introspective view of the madman. Red Son will be re-read and re-read until something about it doesn't sit right, and is eventually tossed in the same pile along with the Killing Joke, and the Dark Knight. Basically I have read these, and will pick them up again and again and again...
