### **REVIEW OF DE VILLIERS AND TAYLOR ON POINT AND FIGURE CHARTING**

- This book was absolutely fabulous... I would recommend it to everyone... i was totally engrossed in this book when i first started reading... im even more impressed to find out that the writer started it when he was 15... To all those who wish they could live with the dragons and have action-packed adventures i would recommend this book. turst me you will get all that and more..

- I purchased this book on a whim at Sams Club. I couldn't put it down. It is one of the best books I have read, and I have read over 1000 Sci-fi/Fantasy books. It is well written, even though the Author was 15 at the time. The start of the book is very original. The main character Eragon finds a Dragon Egg. He doesn't even know what it is, but soon finds out... The dragon egg soon hatches and changes his life. He has to grow up quickly, and face many dangers and reality. It is a great book and I am eager to read the next one!!!!
